

Watch Us Grow

In the 13 months past our business has grown from a stock of \$239. to almost \$3,000. and while we don't expect to grow ten-fold during the next year, we will show a big increase.

Our stock today comprises thousands of articles, from dry goods, kitchen utensils, notions, candies, china and glassware to hardware, gent's furnishings, tools and all kinds of

Variety Goods

and all at very bottom prices — for we believe in quantity sales at small profit on each article.

Our success has been due to our

"Sturdy as the Oak"

In designing this new Oakland Six, Model "32," the engineers have met the demand for a car devoid of every bit of excess weight which added nothing to the endurance of the car or the riding comfort of the passengers. They produced, in Model "32," a motor car with every advantageous mechanical and engineering feature found on high priced cars.

And so well did they plan that the result is a new Oakland Six at \$895. — the FIRST real, full-sized six-cylinder car to sell at less than \$1000.

This car possesses all of the essentials of the most exacting motor car service. The car is roomy, with wide seats and plenty of leg room. Long, resilient springs and deep upholstery insure perfect riding comfort on any road.
