High School Play Abandoned

Owing to lack of interest and cooperation among the students of the high school, especially among those pupils who were to have taken part in the annual play, scheduled for next Friday night, the play has been abandoned.

Hogs Going Up

It is a pleasure to chronicle a strong upward tendency in the hog market, with tops quoted as \$7.20 at the Portland Union Stock Yards Monday last.

There are many farmers in this section who have been holding off the final fattening of their hogs for months past, awaiting a price which would allow of making a profit, or at least breaking even for the feeding and care. This upward market tendency will be good news to these stock raisers.

Jingle Bells Half the Way

A real old fashioned sleigh-ride party started out from Estacada last Friday night as the guests of Mr. and Mrs. W. Givens, to the accompaniment of the merry jingle bells, and one team of horses, but after traversing about one mile, another team was added.

An hour or two later, while passing the Garfield school, the old four hoss sleigh done broke down and all voyagers were transferred to a borrowed wood rack, with wheels instead of runners.

Even with the thermometer below freezing and three hours consumed in the journey, a good time was had at Log La Barre, the party returning to Estacada about milking time.

Springwater Beats The Peninsulas

The Springwater basketball team defeated the fast Peninsula Park quintet last Saturday night at the Dodge Hall, by the score of 24 to 19. At the end of the first half the visitors were ahead by 11 to 8 points, but it was the final score that "brought home the bacon."

Manager Horner is in receipt of a letter from the Oregon City basketball tossers, saying that they are very sorry they cannot play a game against the locals, as their schedule is filled.

They are not half as sorry as the sporting fans of this section are, for a clash between eastern and western Clackamas teams is always a welcome sight, even if we should possibly happen to get beaten.

Change of Location

We beg to announce the removal of our mill and lumber yards from the present location in Springwater, to a new location, one and one-half miles east, near the old Cunningham place.

The removal of the mill is now going on but will be ready for operation by March 1st next.

We will also open a branch yard in Springwater about one-half mile south of the Springwater Store on the Edgar Horner property and hope to soon be able to announce the opening of similar sales yards in Estacada.

Our new location is in the midst of one of the finest stands of timber in the state, with from five to six million feet available.

We shall be able to supply all grades of lumber, including the best of mouldings, finish and dimension stock.

The patronage of our friends, the residents of Clackamas County, is respectfully solicited.

Horner Brothers
