Garbage Collection

One of Springwater's enterprising farmers has established in Estacada a semi-weekly garbage collection and is now soliciting more patrons.

There is no charge for this service, the collector furnishing sanitary garbage cans for each customer, with collections made on Tuesdays and Fridays.

Parties desiring to avail themselves of this opportunity to dispose of garbage, are requested to leave their names at the News' office.

GEO. C. BROWNELL

This man was a member of the State Senate from Clackamas County, for twelve years, and his record was exceedingly good. The Senate Journal of 1901, at page 45, shows that he was the man who fought through the Legislature what was known as the Initiative Resolution amending the Constitution of the state, which changed our whole form and system of state government. It was through his influence, more than any other one man in Oregon, that the old political machine was destroyed and put out of business. Under this new system has come the popular election of United States Senators at the ballot box, the Primary nomination law and all other legislative reforms. All through his service in the Senate he was a strong advocate of Women's Suffrage. To show the esteem that the people had of him, and the influence that he exercised, he was elected President of the Senate in 1903. When President Roosevelt came here in 1903, he was selected by unanimous vote of both Houses of the Legislature, to deliver the address of welcome to the President. He is a candidate in the Republican-Primaries for one of the Representatives from Clackamas County to the Legislature, which meets January, 1917. The nominations occur in Clackamas County on the 19th day May, 1916, in the Primaries. In his platform he favors good roads, lower taxation and he pledges himself to the people of this county that if elected, he will vote and work to abolish the numerous Commissions that are costing this state about \$1,000,000 each year to maintain. He also favors and will introduce into the legislature and fight for to the bitter end, a law in favor of the people electing their own Road Supervisors in the different Road Districts of the County, and favoring three County Commissioners for three Districts, one Commissioner to be in the north half, and one in the south and east halves and the other in the west half on the west side of the Willamette river. On account of his large experience in the Senate his services would be invaluable to the taxpayers and the people generally of this county, and for that reason, if for no other, he ought to be nominated in the Primaries on May 19, 1916. He is an able man and should be nominated if the people want good service and want results, because it is generally conceded, by his enemies as well as his friends, that he knows how to do things and how to produce results.

"Great Is Humbug"

And "thereby hangs a tale";
so read on.

Here is Wm. M. Stone's "booze" advertisement, published in the Weekly Enterprise on the 14th of this month and repeated, with slight variation in all of the County papers.

BOOZE

Voters Attention! The Booze Trust is dying hard. It is spending thousands of dollars to defeat certain men for District Attorney in every county of the State. Why? The whisky distillers and brewers want boot-legging. There is big money in it for them. They think that if the law is not enforced, they can bootleg at will, people will get disgusted and want to repeal the prohibition law, and then the triumph of Booze will come. I am the mark for attack by numerous horseflies that populate the stables of the Booze Trust. These mongrels have not hesitated at forgery and perjury. If you elect me District Attorney, I shall see that the bootlegger gets his. I shall enforce the prohibition law to the letter.

Below is Wm. M. Stone's "booze" OPINION, as City Attorney of Oregon City, filed with the Recorder and published in the "Courier" April 25, 1913.

To the Honorable Mayor and the City Council:

Gentlemen:

The three saloon keepers who lost their licenses in Oregon City, to sell intoxicating liquor, can dispose of the same under their government licenses, in quantities of not less than one gallon, nor more than four and seven-eighths gallons. This is regulated by the Federal Statutes, and the city has nothing to say as to the sale and disposal of liquor under these government licenses, as long as the parties did not sell in quantities less than one gallon. They are entirely within the jurisdiction of the Federal Court.

Respectfully submitted,
WM. M. STONE.

It was a very "crooked" or else a very ignorant opinion.

The liquor interests are not spending any money to defeat men who render such opinions.

The young man who says he is "The mark for attack of numerous horse-flies" might think over the old saying that "You can't fool a horse-fly."

A CAPABLE DISTRICT ATTORNEY, DETERMINED, IN DEAD EARNEST, TO SERVE THE PUBLIC, CAN SAVE THE PEOPLE THOUSANDS OF DOLLARS; AND HE CAN MAKE CITIZENS, INSTEAD OF CRIMINALS, OUT OF WAYWARD BOYS AND GIRLS. HE TAKES A SOLEMN OATH OF OFFICE TO ENFORCE THE LAW, BUT THAT MEANS NOTHING IF HE DOESN'T KNOW THE LAW.
