## HOW IT WORKS OUT

Suppose you order a \$16 suit. 5% of \$16 is 80c—making the cost to you only \$15.20. With \$17 to your credit, we will rebate to you \$1.80 in cash.

Or suppose you order a \$20 suit. Deducting 5% from \$20 leaves \$19—so by paying \$2 more, you get a \$20 suit. If a \$25 suit, you get a discount of \$1.25—making the cost of suit \$23.75—leaving \$6.75 for you to pay. Whatever the price of the suit you choose—you get 5% discount.

## C. C. Miller

Steam Fitting Plumbing Electric Wiring

To the Public: Estacada, Oregon, July 7, 1916

The undersigned having just finished the construction of a residence for Dr. Wells in Estacada, Or. takes pleasure in expressing the satisfaction he feels in the Plumbing and Electric Wiring done by Mr. C. C. Miller of this city in the said dwelling.

I have found Mr. Miller a capable and conscientious man, who has, in order to give thorough satisfaction, done more and in a number of instances furnished better fixtures than his contract called for.

Both myself and Dr. Wells are well pleased with his work and desire to let the public know it. We can recommend Mr. Miller as a fair and honest workman whose aim seems to be to do more rather than less to make a job satisfactory and right.

Respectfully, Ed. W. Misener

highways, just so long we consider the expenditure of \$7,626.45 per mile for paving near the county seat, a luxury.

Editor Brodie says "Clackamas County raises annually about \$300,000 for road work" and let it be born in mind that Eastern Clackamas County, with its big corporate holdings of the P. R. L. & P. Co's power plants; its railroad lands, as well as the property of the ordinary resident, furnishes its full proportion of this \$300,000 but it is not getting any of the \$7,626.45 per mile roads.

It is a safe assertion that the good roads which this part of the county now has, were paid for largely by special taxes, coupled with much volunteer work, and if the general fund had been depended upon entirely, our highways would be impassable in many districts.

The taxpayers of this part of the county, not only pay the taxes, special and general, but they also each year average several days of volunteer road work, as for example the recent Good Roads Days in Currinsville, Garfield, Estacada and elsewhere.

The "defender of the hardsurfacing" further states, "the county will this year lay only four or five miles of hard surface roads and that of three projects, one runs into Oregon City and two are located between seven and ten miles of the county seat." The Milwaukie-Sellwood Road is probably one of the latter two, which while not leading into
