Ford Turns Sommersault

The old reliable Ford car, belonging to Fred Anderson of Eagle Creek, last week pulled off a few fancy stunts on the River Road, finally careening down an embankment, turning somersaults, handsprings etc. alighting peacefully on top of driver Fred and his father, A. H. Anderson.

Luckily neither passenger was hurt, as the car merely pinned them down in the soft earth, with their four legs acting as a support for the machine. The Ford suffered a broken windshield and a little scratching, but started running the minute it was righted.

Fred, who is a cautious and careful driver, attempted to pull out too far from the roadway, when approaching a sharp turn and forgot to pull back on again.

Bob Marchbank of Estacada has been temporarily laid up with a return of his asthma trouble, which bothers him each year during the summer season.

Ken Bartlett of Estacada left Monday night for an extended eastern trip. Ken, who is a delegate from the Beta Theta Pi fraternity at the U. of O. to the national convention at Saratoga Springs, N. Y., will make the trip via Eau Claire, Wisconsin, Chicago, New York City and other points, expecting to return in time for the opening of college.

The two weeks hunting and fishing trip planned by J. W. Stevens and family and his brother Charles, who is visiting him, was cut short last Saturday by an accident to Mrs. Stevens, who fell from a log, sustaining minor injuries. The party walked in from Roaring River on Sunday, cutting short their outing by a week.

Mr. and Mrs. R. H. Currin of Currinsville and Mr. and Mrs. W. Givens of Estacada are leaving today for a week-end auto trip to the coast resorts, stopping at Tillamook, Pacific City and other points.

MAINTENANCE OF AMERICAN RIGHTS.

Had this government by the use of both informal and formal diplomatic opportunities left no doubt that when we said "strict accountability" we meant precisely what we said and that we should unhesitatingly vindicate that position I am confident that there would have been no destruction of American lives by the sinking of the Lusitania. There we had ample notice—in fact, published notice. Furthermore, we knew the situation, and we did not require specific notice. Instead of whittling away our formal statements by equivocal conversations, we needed the straight, direct and decisive representations which every diplomat and foreign office would understand. I believe that in this way we should have been spared the repeated assaults on American lives. Moreover, a firm American policy would have been strongly supported by our people and the opportunities for the development of bitter feeling would have been vastly reduced.—From Mr. Hughes' Speech of Acceptance.
