Autos, autos everywhere, but not a drop of gasoline. This was the condition which confronted the motoring fraternity of Estacada and surrounding country this week. The shortage of gasoline seems to be present in other sections as well.

Stop and consider what would happen if the shortage of this rare and expensive juice continues? It has been estimated that bank deposits in Estacada would increase 956%; grease spots on Sunday trousers would increase 220%; leg muscles of motorists would develop to normal size again; several lawns would be mowed on Sundays; a couple of wealthy garage owners would take a vacation and we common people would again feel on an equal social plane with our more fortunate auto owning neighbors.

The mountain trails these days have taken on a Rose Festival, Mardi Gras aspect, with brilliant and variegated colors breaking the monotony of the miles of green vegetation. This gala effect is not due to any early autumn frosts on the maple leaves, but represents the necessary protection and distinguishing marks, worn by hunters, fisherman and hikers, during the present open deer season.

It is hoped no accidents will happen this year and that all nervous excitable hunters have learned that deer do not wear red bandannas nor striped sweaters.

Few deer have to date succumbed to the deadly aim of local hunters; but several hunters have already succumbed to the joy of toting a twelve pound piece of artillery, with its pounds of ammunition, a few miles up a mountain trail. Then comes the sport of lugging it back again, with nothing more pretentious for a mark than a chirping chipmunk on the end of a log.

Rumor is current that County Judge Anderson is contemplating resigning his office this year and rumor also credits the fact that a successor will be appointed by the Governor. We trust that for once Dame rumor is mistaken and that Judge Anderson will continue his good work, but if he does resign, it is hoped that a successor will be elected to the vacancy, so that the people and taxpayers may express their wishes in the matter.

It has been suggested that Estacada hold a street carnival and dance on the new Broadway concrete pavement, as soon as the work is completed.

Such a celebration would be a fit and enjoyable affair and as

the paving is not of the 98c variety, now in vogue in other parts of the county, it would probably stand the strain.

### Fair Bulletin Ready

The third annual premium list of the East Clackamas County Fair is now ready for distribution, having been delivered to the secretary of the fair board by the News' office last Friday.

One thousand of these attractive booklets are to be distributed and in order to make sure that you obtain one, call on some member of the fair board and get yours.

The premium list this year is more extensive than formerly, with more cash and other awards offered.

Every family in this part of the county should closely read one of these booklets, then immediately decide what exhibits they will make, whether livestock, poultry, agricultural or domestic science. Then start in right now and care for or work up those exhibits until they are sure to win prizes.

### School Prospectus Printed

Three hundred attractive booklets, being a prospectus of the Estacada High & Grammar Schools, were this week delivered from the News' presses, to Principal Guthrie of the schools.

These booklets are an especially attractive souvenir, containing a photograph of the schools, a school year calendar, courses of study, names of school directors and officials, faculty lists, alumni officers and members and student organizations. Paragraphs are given up to descriptions of the departments in athletics, oratory, library, laboratories, requirements for graduation, registration and similar useful information, for both attending and prospective students.

This book was issued under the direction of Principal Guthrie, who will gladly furnish copies to those desiring same.

### George Proctor Killed Saturday

George Proctor of Cottrell, the 23 year old son of W. A. Proctor of Sandy, the Republican nominee for county commissioner, was found dead last Saturday, having been run over by a heavy wood wagon, which he had been driving.

The body of the young man was found lying by the side of the road, with the neck broken and it was evident that the wheels of the loaded wagon had passed over it. As to how the accident occurred, no one knows, as no witnesses were present.

Mr. Proctor was one of the popular young men of the Cottrell Sandy district and was well known to many residents of this community.

H. C. Stephens of George is having extensive improvements made on his home. These improvements consist in the addition of several rooms to the house, besides bath, cement cellar and complete water system.
