

Here Is A Good 6 Per Cent. Investment

Within a few days, the Bancroft Bonds, issued by the City of Estacada in the financing of the present hardsurfaced pavement on Broadway, will be for sale.

These bonds, which are issued in denominations of \$165. each, represent a first-class, well secured investment for the person looking for a safe investment for a small amount of money.

These bonds are issued and secured by the City of Estacada, the city in turn holding a lien or mortgage against the property abutting the street improvements. Each bond is issued for a term of ten years, with 6% interest payable semi-annually, on August and February 1st.

The bonds will be sold to the highest bidders and should command par value, as about thirty days accrued interest will be forthcoming.

Parties wishing further particulars may inquire of City Recorder C. W. Devore or anyone of the following members of the Finance Committee, S. E. Wooster, J. F. Lovelace or R. M. Standish.

To Secure Cut-Throat Trout

At the request of Game Warden Patton, this office has this week written to the U. S. Fish Commission at Washington, asking for application blanks, on which to make formal application for a supply of cut-throat and black-spotted mountain trout fry, for liberation in the nearby smaller streams.

It has been proven that the eastern brook and the rainbow fry, liberated in the past three years in the tributaries to the Clackamas River, have not thrived in those small streams, with the latter species having largely followed down stream into the main river.

As the small streams furnish the natural environment for the cut-throat and black-spotted trout, those streams should be stocked with those varieties only and as they have to be obtained through the Federal Fish Commission, the application has been made.

The Misses Josie Harkenrider of Estacada and Dora Currin of Currinsville, returned last week from an extended visit in the Blue Mountain country in eastern Oregon.

Dr. and Mrs. Lee A. Wells of Estacada left Saturday for a week's auto trip and vacation at Mrs. Well's former home at Roseburg, Or. During the doctor's absence, a Portland dentist is in charge of the office.

School Supplies

A Full Line Of

* Book-keeping Supplies, High School Pads,
* Laboratory Note Books and Fillers,
* Stationery, Library Paste and Glue,
* Tablets, Pencils, Inks, Rulers,
* In fact all Supplies you will need in School.

Peach Canning

* Will be here in about 10 days.
* If you want to benefit in buying, call and see us now.

Miss Flora Schultz of Garfield, entertained about thirty friends last Thursday evening at a delightful lawn party, the guests of honor being Mr. and Mrs. H. G. Trowbridge and Miss Rachel Reed of Estacada and W. W. Dillon of Garfield, who are leaving here shortly; the former moving to San Francisco, Miss Reed returning to the University of Washington and Mr. Dillon joining the Y. M. C. A. forces on the Mexican border.

Guy T. Hunt and son Harry and Oliver Bowman of Upper Garfield, left the first of the month for Baker, Or., where they are employed in the lumber business.

Dr. J. L. Hewitt of Portland, spent the week-end at the home of his brother-in-law, S. E. Wooster of Estacada, and visited his Garfield ranch.

Ernest Boylan and family of Springwater last week moved into the Underwood house in Estacada.

Local Farmers Receive \$35,394.00 For Hogs

Continued from page 1

At the present rate of shipment, the local yards should handle close to 2500 hogs during 1916 and there is no reason to believe that the 1917 season should not show an equal increase.

Allowance must furthermore be made for the buying and shipping of many carloads of stock by other buyers and from other points than the Estacada yards.

Of course, if the Estacada yards had not been established, much livestock would have been sold from this community in dressed form, but the profits and growth of the hog and cattle industry would not have reached its present high state, if the railway company and a few local men had not fostered and put through the establishment of the Estacada Stock Yards.

The above is merely an example of what an industry can do for a community and is presented with the hopes that the farmers and business men of this district will take a more active interest in obtaining other industries.

The Estacada Cannery, despite a few handicaps, has to date distributed among the growers and workers of this section, over \$4,000, and another year should distribute not less \$20,000.

The News is this week in receipt of the announcement that a Detroit milk condensery firm, wishes to locate a plant in Oregon. This is merely one of a number of such items received, but how is this community going to interest and locate such industries, when there is no commercial organization here?

A commercial club should be reorganized and that club should contain as members every farmer and business man in this section. Other sections are obtaining industries and reaping material benefits, so why should not we?

A number of the Estacada men are now agitating the formation of another commercial or development club and when the call comes for an open meeting, it is hoped that every property owner in this vicinity will attend.

Property Agent Advised Of Thistles

R. M. Townsend, Property Agent of the P. R. L. & P. Co., accompanied by his wife and mother, spent a couple of days in Estacada and Springwater, early this week.

While here, Mr. Townsend attended to several business matters and will see that immediate action is taken to destroy a big patch of Canadian thistles, which is reported to be on the company's land, between the Cazadero flume and the Clackamas River.
