### Anti-Saloon League Wins Praise

On the evening of Sept. 6th, at the 4th Quarterly conference of the M. E. church in Estacada, a motion was unanimously adopted commending the Anti-Saloon League for its active fight for law enforcement and home protection. Attention was called to the work of the League's attorney, who spoke in several churches in and near Estacada on Aug. 20. Mr. Baker had been especially careful to inform his audiences with regard to the Brewery Beer Amendment on which we must vote in November.

This is the amendment.

#### PROPOSED BREWERY

#### BEER AMENDMENT

Section 36. From and after January 1, 1916, no intoxicating liquors shall be manufactured or sold within this state except for medicinal purposes, upon prescription of a licensed physician, or for scientific, or sacramental purposes; provided however that it shall be lawful to manufacture within this state, fermented malt liquors containing 4% or less of alcohol, manufactured exclusively for shipment outside of this state; and provided further that it shall be lawful to sell and deliver in this state by the manufacturer to any person or individual, in original packages only, such fermented malt liquor containing 4% or less of alcohol, in such quantity or under such regulations as may be prescribed by law. Until otherwise prescribed by the legislature this right of sale and delivery shall be limited to the same quantity as persons are now permitted to import into the state under existing laws, and such persons may not within any one period fixed by law both import and purchase locally.

Here are a few features of this bill which Attorney Baker pointed out.

The insertion of a comma after the words "for medicinal purposes" and before the words "upon prescription of a licensed physician", makes it possible for druggists to sell for medicinal purposes without prescription, and for physicians to prescribe it for other than medicinal purposes.

It is a rule of law that a person does a thing himself when he does it thru an "agent". With this law in force we would undoubtedly see brewer's "agents"

in every town, including our own. As all license and local option laws were repealed with the adoption of our present prohibition law it is hard to see what control the local committees could exercise over this new form of distributing agency.

That an increased allowance for deliveries contemplated is shown by the words "in such quantity or under such regulation as may be prescribed by law", "until otherwise prescribed by the legislature".

The bill is advocated on the ground that we are at present sending too much money out of the state for liquor. The prohibition interests have answered this by an amendment intended to prohibit absolutely the bringing in of liquor. But the fact remains that we are today sending very much less money out of the state to buy liquor than we did when we had brewery owned saloons.

This bill is but an opening wedge for the return to power of John Barleycorn. Do you want him back?

(Signed) F. B. Guthrie

### George Has Drilled Well

One of the few deep drilled wells in this community, was recently finished on the A. M. Jannsen place in George, having been drilled with a regulation well-drilling outfit, in charge of Otto Jannsen.

This well, which is 81 feet deep and contained in a six inch pipe, is now furnishing an unlimited supply of the best of water.

### High School Courtship

#### Ends In Marriage

On Monday last, at the home of the bride's parents at The Dalles, Miss Levina Harriman was married to Earl Tracy, son of Mr. and Mrs. N. M. Tracy of Garfield.

Both parties had formerly attended the Estacada High School, where the courtship originally started.

The newly-weds are now at the Tracy home in Garfield, where they are receiving the congratulations of their friends.

ECENT statistics show that the number of women bank depositors is steadily increasing. It is a healthy sign of business conditions. There was a time when the number of women depositors was practically nil. With the advent in the business world of so many women it was assured that the number of female depositors would show an increase.

Women are inclined to be more thrifty than men. Thrift and banking go hand in hand. Many women in this community have bank accounts. To those who have not this appeal is made. Open a bank account today. Once having opened it, add to it. Watch it grow. You'll like the experience.

WE'LL BE GLAD TO EXPLAIN OUR BANKING SYSTEM.

Officers

Leroy D. Walker, President - Thomas Yocum, Vice President  
Irwin D. Wright, Cashier

Ralph Reid of Garfield returned home this week, after spending the summer in the forestry work, being in charge of the Mt Lowe lookout station.

Miss Ethel Jones, a high school girl of Salem, was a guest at the W. H. Holder home in Estacada for a few days this week.

Ray Crane of Springwater is suffering from an infected hand, caused by a cut on a rusted piece of baling wire.

Not content with his handsome new Oakland Six auto, N. S. Laurry of Estacada has this week made a trade, through the agency of the Estacada Garage, whereby he is now the proud owner of a latest model Oakland Eight. The Garage also report the sale of a Ford car to Jas. Adams of Logan.
