A Record Of Stewardship

Continued from page 3
The fraud-law statutes to prevent the use of the mails for swindling purposes have been vigorously enforced and will be continued for the public protection.

More than \$1,000,000 have been saved on a four-year contract for supplying the Government with stamped envelopes, and competition has been encouraged and secured in awarding contracts for post-office quarters and supplies, effecting large savings in these several directions.

And above all, notwithstanding the great loss caused by the low rates for second-class matter and the heavy expenditure for rural delivery and the fact that for 29 years preceding 1913 there was an annual deficit, the gratifying announcement is made that the Department is now not only self-supporting, but will turn back into the Treasury this year a surplus of \$5,742,000.

It is only just to say that no opportunity has been neglected in any direction whereby money could be saved and conditions improved. While the saving of money is always a public duty, it is not everything—not the great essential of public administration. Service, always service, this is the great and commanding need—more and better accommodations, greater convenience and comfort, whatever makes for peace and contentment. These are things more to be desired than the saving of money; but if both can be secured—more and better service for less money—then the purpose and aim of wise administration has been accomplished, the utmost given that any man can expect or desire.

No more important responsibilities can be imposed on men under our form of government than that of maintaining a service so fundamental to the welfare and happiness of the people. For the time being, these responsibilities rest upon the Postmaster General and his army of employees, and the way these duties are met and discharged will be measured by the extent to which the service has been made beneficial, all graft and special privilege eliminated, and all individuals and communities treated alike. In accordance with the belief that this has been well and conscientiously done will the public verdict be rendered and final judgment given.

Trip 'Round The World

The Ladies' Aid Society of the Estacada M. E. Church are planning a novel supper and entertainment to take place Friday evening, October 20th.

The supper, which will start at the church, will consist of courses at various homes, each home being decorated to represent some foreign land.

Tickets for the round trip and the supper will be sold for 35c each and all are invited to get their transportation early.

Mrs. S. P. Waterbury, who has been very sick for some time past, died suddenly at her home in Estacada Thursday morning of apoplexy. Obituary next week.

THE GOOD JUICE WAS NOT SURPRISED.

HELLO, MAYOR! I THOUGHT YOU SAID IT WAS TOO STRONG!
I WAS LIVING TOO HIGH TAKING TOO LARGE A CHEW. NOW I'M GETTING WISE.
THAT'S THE IDEA—A SMALL CHEW LOOKS BETTER AND TASTES BETTER.

THE tip from a user of W-B CUT Chewing to a beginner is:

"If you won't take a little chew don't take any. W-B CUT isn't ordinary tobacco. It's rich tobacco—a chew as big as a regular sized wad of plug is too much of a good thing. If you really want to know what tobacco satisfaction is, tuck a little nibble of W-B into your cheek, and notice how the good tobacco taste lasts and satisfies."

Made by WEYMAN BRITTON COMPANY, 50 Union Square, New York City.

Contributed

The first literary programs of the year were given by the Websterian Society on Friday, 29th. With the new talent which has entered into our school a very successful year is predicted for both societies.

The second monthly meeting of the Student Body will be held next Friday afternoon at 2:05.

Having advanced from the Freshman stage the class of '19 has discarded the brilliant red and green colors for the more modest blue and white.

The event last Thursday evening was not a charivari only the annual football rally of the E. H. S. students who after marching single file down the streets of the town, to the time of drums and cowbells and high school yells, gathered around the huge bon-fire by the City Hall. Here several "snappy" speeches were given by some of the football stars—Sam Barr, Otis Wagner, and Clyde Denny, and also some of the faculty members—Mr. Guthrie, Miss Lilly, Miss Dillon, Miss Schrepel and Mr. Baker. After this there were more high school yells and as a result many were unable to speak next day.

Everybody Happy? Yea Bo!! We didn't get beaten. The score was simply against us that was all, but the spirit and pep of "old E. H. S." is never defeated.

Where Oh! Where were the boys voices when the football game was in progress? The girls did all the rooting.

Evidently someone is in control of Gresham H. S. who does not believe in diplomacy, as they are coming to Estacada Friday, to take defeat at the hands of the E. H. S.

Previous G. H. S. games:—

Year	E. H. S.	G. H. S.
1913	93	0
1914	0	40
1915		No game
1916		?

Oliver Bowman of Garfield has returned home from Baker, where he has been working.

Mr. and Mrs. Nunn of Portland spent the week-end at their Garfield bungalow.

Estacada Garage Changes Management

Announcement is made of a change in the management of the Estacada Garage this week, the present owner, J. W. Reed having incorporated the business, taking on two partners, M. E. Park and J. M. Melton, formerly of Oregon City.

In the addition of these practical business men, the service of the Estacada Garage will be greatly augmented, as Mr. Park has for years been in the automobile business, having founded and managed the Pacific Highway Garage of Oregon City, where Mr. Melton has been the foreman.

Under the new management, more machinery will be immediately installed, including a lathe, forge, drill press etc, making the shop the equal of any in the county, especially adapted for the repair and maintenance of Ford cars.

The Garage will continue to act as agent for the Ford, Oakland and Studebaker cars and Denby truck, with J. W. Reed giving his attentions largely to the sales end of the business.

One Sow Brings \$37.20

Buyer Givens found a variety of livestock offerings on shipping day Wednesday, having purchased sheep, calves and a bunch of fine looking hogs.

Henry Trapp of Garfield brought in one 465 pound sow, which at the rate of 8c realized \$37.20, with other fattened hogs bringing 9c top price. The shipment included seven Doroc Jersey hogs, which were purchased by J. W. Moxley of Morrow about sixty days ago for \$30, being then a runty looking bunch, these animals brought an average of \$20 apiece, in payment of sixty days good feeding and care.

W. Woodward, formerly chief machinist mate on the U. S. S. San Diego for the past five years, is now located in Estacada, his former home.
