HEAD OF MONMOUTH NORMAL
SAYS ONE SCHOOL CANNOT
SUPPLY DEMAND FOR TEACHERS.

Monmouth, Ore.—“A careful analysis of the situation will convince any one that Oregon needs a Normal School in Eastern Oregon and also one in Southern Oregon,” said J. H. Ackerman, President of the State Normal School at Monmouth. “It is a well-established fact that a centrally located Normal School cannot supply the needs of the entire state. The need of a Normal School in Eastern Oregon is readily proven by the most cursory investigation of the list of our students and the list of our graduate teachers. The estimated population of our state in 1914 was 795,587. Take for example the eight Western Oregon counties, Clatsop, Clackamas, Benton, Lane, Linn, Marion, Polk and Yamhill Counties. Their population for 1914 was 214,628, or less than 27 per cent of the total population of the state, yet 59 per cent of the graduates from our Normal School for the past five years are teaching school in some one of these eight Western Oregon counties. There are 35 counties in the state, yet eight of these counties are getting half of the benefit of the teachers for which all of the counties pay the taxes.

Here is the list. During the past five years we have supplied the following graduates as teachers to these counties:

Clatsop, 18; Clackamas, 20; Benton, 25; Lane, 36; Linn, 28; Marion, 28; Polk, 25; and Yamhill, 20. In other words, 203 of our 407 teachers who have secured places in the public schools in Oregon during the past five years, have gone to these eight Willamette Valley counties.

Now take eight typical Eastern Oregon counties and see if they have secured their proper share of teachers with Normal training. During the past five years we have supplied Normal graduates as follows to these Eastern Oregon counties:

Baker, 9; Grant, 1; Harney, 4; Malheur, 2; Morrow, 4; Umatilla, 10; Walla Walla, 7; and Wheeler, 2.

The eight Willamette Valley counties had 203 Normal teachers as against 39 Normal teachers for the eight Eastern Oregon counties. Eastern Oregon received less than 10 per cent as against Western Oregon's fifty per cent.

The Wilson Waltz.

In view of recent events the following formula overheard on a hotel veranda may be of interest: The Wilson waltz, one step forward, three steps backward, hesitate, then sidestep.

The Administration is depressed by the reflection that under no circumstances can it postpone election day.

Wilson insists that he will never recognize government by assassination, but he hasn't cut off relations with those who have assassinated Americans.

The first President and the first Congress that ever submitted to a hold-up.

And, by the way, nobody will ever be able to claim this was a regular Democratic Administration unless we have a bond issue before March 4, 1917.

Betting on Hughes and Wilson is dangerous both to Democrats and Republicans. In one of the New England states such a bet was made a few days ago. The officers heard of it and they arrested the Republican on a charge of robbery and sent the Democrat to an insane asylum. Be careful.
