

Committee to Investigate Condensery

Continued from page 1

A committee, comprising Messrs. Devore and Adix of Estacada was appointed to draft a resolution, asking the County Court for financial aid in the improvement of the Dover or Douglass Hill Road in upper Eagle Creek; the Trachsel cut-off road in Springwater and other important trade arteries.

The meeting informally considered several other important matters, with suggestions on further work to be attempted.

These dinner-meetings are open to any business man or farmer in this community and all are invited to join in the work of the club. The committee in charge of next Monday nights meeting is Harry C. Reid and E. W. Bartlett of Estacada and all parties intending to be present are asked to notify one or the other of these men, as dinner reservations have to be made in advance, the expense being 35c per plate.

Clyde Saling of Currinsville is still making regular trips to the county seat, where he is on the petit-jury, which is holding a long session.

Isn't This Logical?

That no profit can be made on the sale of an article of **JEWELRY**, until all expenses incident to the sale are deducted, is the natural supposition — isn't this correct?

Now consider—the higher the expense of a jeweler, the higher the selling price of an article of jewelry must be.

Further—you are aware that my expenses in operating a jewelry establishment in Estacada are nothing as compared with the big jewelry houses in Portland and other cities.

So—which one of us can make the quickest profit on a sale?

I can — of course!

That is why I am asking you to let me quote you prices on any article of jewelry, before you purchase elsewhere. I do not have the heavy expense of carrying a big stock, but I have the catalogs and can furnish you any article at a saving to you and with a fair profit to me and I guarantee satisfaction.

Consider this now before you do your Christmas buying and let's get together and incidentally keep the home dollar in home circulation.

Head Run Over by Wagon

Wm. Wood of Barton met with a bad accident Monday, when he fell under the wheels of a wood-rack which he was driving, his head being run over by one of the wheels.

Mr. Wood, who lives near the approach to the Barton bridge, in some way was jounced from the wagon seat and in jumping caught his foot in the reins, throwing him under the wheels.

Dr. Adix of Estacada, who attended the patient, found that no bones were broken, but the jaw bone was badly wrenched and the muscles of the face and head severely gashed.
