Catarrhal Deafness Cannot Be Cured
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Cure acts thru the blood on the mucous surfaces of the system.
We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Cure. Circulars free. All Druggists 75c.

DOCTORS HAVE THE KNACK OF GETTING WISE.

GET this under your scalp lock: "If you won't take a little chew don't take any"—that's the W-B CUT Chewing message you hear gentlemen telling each other all over the country. It's common sense applied to chewing tobacco. W-B is rich tobacco shredded and lightly salted—and you bet men are glad that it has come about at last.
