

We wish you one and all

## A Merry Christmas and A Happy New Year

**W**e wish you prosperity, health and happiness during the coming season and trust our future relations as banker and patron, may continue along those lines, which in the past have proven a pleasure and profit to us both.

**A**s a suggestion, why not let your Christmas gifts this year take the form of money?

**W**hy not give your children one of our attractive metal savings banks and a nest-egg for a savings account?

**S**uch a gift will not only please the recipient, but the giver will feel that the present is a wise one, a welcome one and one inculcating saving habits in the child.
