VOLUME 10, NUMBER 43

ESTACADA, OREGON, THURSDAY, JULY 12, 1917

\$1. PER YEAR

## WHAT HAVE YOU TO SWAP?

**Estacada Should Establish  
"Court Day" Devoted  
To Trade, Barter  
And Sale**

Court Day, as it is called, has been an institution in certain Kentucky towns for years past and has proven a valuable asset to those towns and communities, besides furnishing plenty of entertainment and bringing the people closer together.

Court Day occurs once or twice per year, or as often as desired, at which time everyone in the community is invited to come to town and bring with them anything or everything which they wish to sell, trade or barter and before the day is over thousands of dollars worth of merchandise, live-stock and especially second hand articles have changed hands.

Why not establish in Estacada, a Swap Day, conducted along similar lines? It would not only prove a good live advertisement for the town and community, but would serve a long felt need.

That such a day would be welcome and a success is amply evidenced by the very fact that hundreds of local people attend every public auction that is staged in this community, all eager to buy the second hand goods offered; showing that there is always a demand for used implements, household goods, live-stock, poultry, swine and the like.

Through the "Wanted and For Sale" columns of the News alone in the past few years, thousands of dollars worth of trades and sales of second hand goods have been conducted, with old buggies, wagons and harnesses traded for livestock, implements, musical instruments, guns or cash. And as for second hand ranges or heaters, there is a demand way beyond the supply.

We are all of us natural traders, we like to swap, barter or trade, and in this community are a lot of first class, clever "hoss traders", who ought to be brought together; besides others who specialize in cattle and know the fine points of a cow from tip of tail to curled horn. These traders now meet occasionally and do their swapping over the line fences, but like fighting cocks they should be brought to-

## EASTERN CLACKAMAS WAR CENSUS REGISTRATION NUMBERS AND NAMES BY VOTING PRECINCTS

**Young Men Subject To Conscription  
Should Remember Their Numbers.**

**National Draft To Be Based Upon These Numbers  
In Each County.**

Thanks to the public-spiritedness of Attorney C. W. Devore of Estacada, who voluntarily spent a few hours Monday in Oregon City obtaining the following data, the News is herewith able to furnish its readers the names and registration numbers of all men in this territory, who are subject to the U. S. War Census Registration and Conscription.

Due to lack of time, Mr. Devore was unable to copy the data for the Viola precinct, but the News hopes to be able to publish same later.

As to the method to be employed in the National Draft, information will be published as soon as received from Washington. But all eligible men are cautioned to remember their numbers.

As the printing of this list, will do away with each man having to make a trip to Oregon City to obtain his number, the News is pleased to be able furnish same. A limited number of extra copies of this list have been printed and are for sale at the News office as long as the supply lasts.

## WELLS SUCCEEDS STANDISH "Ye Editor" Resigns From Estacada City Council And Offers A Few Excuses

At the regular monthly meeting of the Estacada City Council, held Tuesday evening, R. M. Standish resigned as councilman of the 4th ward.

The resignation being accepted, Dr. L. A. Wells was elected to fill the unexpired term of four years. The appointment of Dr. Wells is a wise one, for being a property owner and business man of the city, he is ably qualified to aid in the city's government.

In explanation, "ye editor" desires to offer a few excuses, but primarily wishes to present before the people of Estacada, a portrayal of conditions now current in this city, which need remedying at once.

These conditions are not all apparent to the average citizen, although many of them are in plain sight, but being overlooked. As a result of over two years service as a member of the city council, "ye editor" has had an opportunity to observe and ascertain conditions, which are not visible to the average taxpayer.

The following suggestions and statement of facts are not presented in a spirit of pique or fault finding, but to wake up our citizens to a realization of conditions, which if allowed to continue, will end by our home city back-sliding, instead of continuing a steady, healthy municipal growth.

This is done with a full knowledge of the fact that as an advertisement for Estacada, it may do some slight harm, but no improvement will be forthcoming in this city or any other, so long as the residents refuse to face the true conditions and act accordingly.

Probably the greatest harm today being done to the City of Estacada and a serious handicap to its officials, lies in the present apathy of the majority of the city's inhabitants and the actual antagonism of a few, towards the city's officials and their work.

Estacada is now undergoing a transition period. The city's side-walks and streets and its sewer systems are in a badly worn and neglected shape, most of them having been hastily con-
