

# Cash Or Credit

That is the question that has been bothering us lately, but we have decided that our customers that have been paying their accounts in the past are entitled to credit.

At the present margin of profit we will have to insist on payment on the First of each month and any account not paid within 30 days will become delinquent and any further credit refused.

We do not intend to make our customers pay for goods sold to dead-beats.

## E. H. S. Echoes

Contributed by Estacada High School

The Junior class gave a novel chapel program last Wednesday morning, which was enjoyed by all, including some of the parents and friends who are availing themselves of these interesting programs.

During the absence of Miss Schrepel, Sadie Wilcox and Mabel Keller are directing the work in home economics.

The calendar shows but three days of school this week.

Prof. H. C. Maris of the State Superintendent's Office visited the schools Monday in the interests of Industrial Club work.

The annual Grade Entertainment took place Tuesday evening, in the high school auditorium, with all classes participating in the program and before a large audience of parents and friends.

Hereafter pupils coming from non-accredited high schools will be required to pass examinations in subjects taken in non-accredited schools, before credit will be allowed in the Estacada High School. This rule becomes effective December 1st throughout the state.

O. M. Opstad, Estacada's jolly cheese-maker, became a member of our high school faculty last week, when his establishment was visited by the classes in Dairy Farming, Agriculture and Cooking. His demonstrations and explanations of the various processes in cheese making were helpful and appreciated by all.

## Which Is The Cheaper

The Estacada City Council, which lately has been trying to obtain peaceable water rights on the Mary Stubbe place, for the intake of the Estacada city water works, is now in a quandry.

Part of the council had arranged to pay Mrs. Stubbe the sum of \$319 for a small parcel of land, near the present intake. This price being made sufficient by the owner to cover not only the price of the land but including many other expenses of the last few years incidental to this water right location.

Now, Mayor Lovelace has discovered that an acre of land, lying within a few hundred feet of the Stubbe plot and equally as well adapted for the city's purposes, can be purchased from the Davis and Webster estate for \$125. Consequently the council has about decided to abandon the Stubbe water site, with its attendant worries and locate in a more peaceful spot.

L. C. Lawrence of Springwater is congratulating himself on having recently dug a thirty foot well on his place and despite the dryness of the season, found seven feet of water.

At a meeting of the Estacada Cooperative Cheese Assn held Monday evening, a price of 50c per pound butterfat was agreed upon for the remittances for the past month.

Ray Lincoln of Canyon City is a guest this week at the home of his sister, Mrs. R. C. Mulkey of Estacada.
