There is more Catarrh in this section of the country than all other diseases put together, and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional conditions and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is a constitutional remedy, is taken internally and acts thru the Blood on the Mucous Surfaces of the System. One Hundred Dollars reward is offered for any case that Hall's Catarrh Cure fails to cure. Send for circulars and testimonials.

Thrift Stamp Paragraphs

Lend your quarters to warm the quarters of American soldiers "Over There"

There are 100,000,000 of us in the United States. So let's cut out the little extravagances and when the pennies have been saved, Uncle Sam has provided simple machinery with which to take care of them. Twenty-five cents buys a Thrift Stamp. Sixteen Thrift Stamps pasted on a card given you when you buy the stamp, with 12 cents additional will buy a War Savings Stamp. Twenty War Savings Stamps pasted on a War Savings Certificate, given with your first War Savings Stamp, becomes virtually a government bond, for which the Government will pay you \$100. in five years.

A War Savings Stamp is just as safe as your country. And the more Stamps sold right now, the safer your country will be.

The mighty oak was once an acorn. A Thrift Stamp may become a Liberty Bond.

Uncle Sam's War Savings Stamps "drive" isn't really going to be a drive at all. Rather it's going to be a campaign of education, the drive features of which will be conscientious effort to drive home knowledge and appreciation of the real life-giving results of thrift into the heart and head of every American mother and father and each of their little ones.

There will be no centralized "drive" to raise the \$17,000,000 Uncle Sam has asked Oregon to furnish by the sale of War Savings Stamps. There will be no effort to "drive" the people of Oregon into the purchase of War Savings Stamps and Thrift Stamps.

Uncle Sam wants Oregonians to develop and practice habits of thrift to such an extent that they will do their own "driving" and again send Oregon "over the top" with colors flying.

The members of the Red Cross in Currinsville are planning to conduct meetings and sewing circles in their home district hereafter, as it is too far from the Estacada or Eagle Creek organizations for easy attendance. The ladies will meet Tuesday afternoon, January 15th and ask that all neighboring ladies join in the sewing, which will take place at the church. All are asked to bring material for making bandages and wash cloths.

Mr. and Mrs. Dave Eschleman have this week moved back into their Estacada home, after an absence of a year at Scobey, Montana and later visiting in Corvallis and Oregon City.

For the first time in seventeen years, Mr. and Mrs. T. C. Jubb of Estacada succeeded in getting the entire family together for a reunion, which was celebrated Sunday, with the guest of honor being their daughter, Mrs. J. Hart of Seattle, who will visit here and among Viola relatives for a few days longer.

Revival Meetings will begin at the Estacada M. E. Church with next Sunday morning's service. Rev. F. W. Snyder will preach. Everyone is cordially invited to be present.

Battery Charging Station

Don't let your motor get cold and expect your battery to respond, which is the fault of the gasoline not vaporizing. Sometimes you forget your switch too and when you press the button continually, you are hurrying it to our station—but that is our business.

If you see a brilliant light coming into Estacada from any direction at night, don't get excited and think it is a Kaiser War Gun for it probably is only a J. R. INTENSIFIER for FORD Cars. Sold only by us in Estacada.

When you are in need of a good tire, think of Brunswick with the 4,000 mile guarantee. That's our business too.

And let Standish sell it
