Jorgs Contemplate Leaving Estacada

That Fred Jorg of Estacada is contemplating selling his market and other property interests in Estacada and moving with his family to Portland, has now passed the rumor stage, being substantiated by Mr. Jorg this week.

Mr. Jorg says "I have parties considering the purchase of my business here and while it is likely the deal will go through, no definite announcement can be made now."

If Mr. Jorg moves to Portland, he will accept a high salaried position as a saddle-maker, at which trade he is an adept of many years training, prior to locating at Estacada.

This city and community will be the loser in the event of the removal of Mr. Jorg and family, for he has always taken an unusual interest in the city and community development, being a bountiful contributor to all causes and having served and is now serving in several public offices; among them being a member of the city council, a member of the school board and an officer of the volunteer fire department. While Mrs. Jorg has always taken a more than active interest in school, club, church and other community work.

C. I. C. Discuss Timely Topics

In keeping with the tendency towards conservation and economy, the ladies of the Civic Improvement Club are now holding instructive meetings at regular intervals, with certain members appointed to handle specified subjects for discussion.

A short time ago, Mrs. Walter Givens led the meeting, the exact title of her subject being forgotten, but it was substantially "How To Cut Down Walter's Pants To Fit Denny."

On Tuesday of this week Mrs. R. M. Standish presided with the subject assigned being "The Family Budget". If the subject at hand referred to "How To Keep Nourishment In and Raiment On the Husband and Kids On A Few Dollars A Month", the editor's wife was ably qualified for the leadership.

Her subject dealt largely with the financing and manufacture of five different kinds of hash from one left-over steak—how to make nourishing soup from remnants—how to camouflage a cheese-rind, to look like a jelly tart, etc. And yet leave enough for the family dog. The family budget, as explained by the leader, was like many road and county budgets, being subject to acceptance or rejection and all depending on the amount of tax or subscription moneys received.
