

Auction Sale

The day of
Saturday
MARCH 2, 1918

has been set for the sale to be staged in Estacada, under the auspices of the Estacada Clearing House.

Sale will begin at 10 o'clock in the display room of the Clearing House, and weather permitting, on the Broadway pavement in front.

Colonel W. S. Wood of Vancouver, who is considered one of the best auctioneers in the northwest, will handle the auction.

As but a limited number of sales can be consummated in one day, the auction will be handled as fast as possible and parties desiring to sell goods or livestock at this sale, must advise the Clearing House at once, as the advance advertising must be done.

There is already listed for this sale several automobiles, saddle, driving and work horses, assortment of implements from garden tools to a binder, mower, plows, cultivators, harrows, etc. and household goods from chairs and tables to beds, kitchen cabinets, rugs and linoleum.

A Cafeteria Lunch will be served at noon by the ladies of the Civic Improvement Club, with both the auctioneer and Clearing House donating 5% of their profits to the organization.

Make your plans now to be present at this all day auction sale and if you have anything which you wish to dispose of in this sale, advise the Clearing House at once and except in the cases of livestock and wagons, bring it in soon.

Do Your Batteries Become Exhausted Quickly?

If so - it is caused by a sediment forming in the cells, which shorts the plates.

Is There Corrosion on the Lead Terminals?

If so - it is caused by sulphate forming on the plates, which has to be removed.

Do Your Batteries Leak?

If so - it indicates a broken jar, which must be replaced.

Without our new

Lead Burner

the repair and re-charging of these
batteries is impossible

We also have a complete

Re-charging Outfit

and can do the work in the shortest time possible.

So - if your batteries are not working properly
bring them to us - it is our business to repair them.
