

# Serve Your Country By Saving Money!

You've always been told you ought to save money; every day some savings bank advertisement tells you so. The chief reason given for saving money has been that you'd have the money with interest later on, as a step to financial independence and success.

That is an excellent reason, but there's a better reason than that. Save because we have pledged the honor of our country and our people to fight this war to our last dollar and to our last man if necessary. America does not break her word.

Money saved makes of you a better man or woman, boy or girl; makes you dependable, responsible; increases self-respect, which increases your value. Save money to help your country by buying War Savings Stamps and U. S. Thrift Stamps.

- 1—War Savings Stamps are a promise to pay you the amount you invest, at the end of 5 years, with 4 per cent interest compounded every three months.
- 2—You can turn them into cash any time without looking for a buyer; just go into any postoffice and get them cashed.
- 3—You can invest in U. S. Thrift Stamps as little as 25 cents at a time, and as much more as you please.
