object is to make our Kultur prevail in the East (in 'Muscovy'), and in accomplishing this we shall also gain economic advantages. This is the first step in our world domination."

Where does America stand in this theory of a "chosen people"? America denies that theory; she denies that God has chosen any one people as His own; she asserts rather that there are many civilizations, each with its own merits and defects, and that to each must be left the working out of its own problems.

We Americans are unable to understand, or sympathize with, a people who conceive of themselves as a chosen people, chosen of God—a people to whom all things and actions, however inhuman or brutal, are regarded as permissible, even holy, because of a faith in their superior mission and civilization. To us such a belief is direct evidence, not of a leading, but of a lagging civilization.

This German ideal, when expressed merely in theory, even though taught in Germany for the last thirty years, stirred but indifferent interest in other European nations. In this war Germany has revealed in the application of her theory a lust for world power at the expense of other peoples, a lack of good faith, a brutality that have stamped her theory as involving a return to barbarism.

By the application of German theory we were forced, unwillingly, to go to war. But today we know that there was no escape from a war between two contradictory ideals. Germany's economic objects are many and large (they will be pointed out), but the basic cause of this war was the German ideal of a dominant nation. That ideal, by Germany's own challenge, is on trial in arms. Against it we must prevail, or we shall perish.

WANTED

WANTED:—Any information which will lead to the election of W. J. Wilson, (alias - Sheriff Billy) or D. E. Frost, (alias Deputy Jack).

Last seen in and about Estacada. Height - Full man's size. Both wearing broad smiles. Thumb-prints may be found on hands of all voters, with whom they have been glad-handing.

Each man has an enviable record, Sheriff Bill having proven a capable county official, a terror to the boot-leggers and other county-seat nuisances and doing his full bit for Uncle Sam in the present war crisis.

His deputy, Jack, is no longer content to act as second for Bill, preferring to get into the ring and his record for knock-outs among law-breakers and his good work in the enforcement of the law regarding juveniles, commend him strongly to the voters.

Both men are now scouting for votes, also keeping an eye out for slackers, shirkers, and pro-Huns and the Eastern Clackamas voters are trying to make up their minds which to favor, and as there are other candidates in the field—who can tell?
