

**Garfield Man in
Charge of Division**

A recent letter from W. W. Dillon of Garfield, who for the past year has been engaged in active Y. M. C. A. work in France, reveals the fact that he has recently been placed in charge of the Y. M. C. A. work for a full army division.

We don't know exactly the number of men in a U. S. army division but it is somewhere about 20,000. We do know W. W. Dillon is capable of assuming such a job, for he has been in the work for many years and since being stationed on the other side has been close to the firing line, having worked for several days in a dug-out in the front trenches and under heavy fire.
