

In the Back

German "Efficiency" has never reached a higher plane than in the foul desecration of the Red Cross emblem in the bombing of plainly marked hospitals in the allied lines.

Since Allied airplanes have become regular visitors to German cities, the Kaiser has discovered such bombing to be a violation of international law.

Your subscription to the Fourth Liberty Loan will mark the earnestness of your approval of the building of great fleets of American airplanes to bring their frightfulness home to the Hun.

President Wilson on Efficiency of our Schools

I am pleased to know that despite the unusual burdens imposed upon our people by the war they have maintained their schools and other agencies of education so nearly at their normal efficiency. That this should be continued throughout the war and that, in so far as the draft law will permit, there should be no falling off in attendance in elementary schools, high schools or colleges is a matter of the very greatest importance, affecting both our strength in war and our national welfare and efficiency when the war is over.

I would therefore urge that the people continue to give generous support to their schools of all grades and that the schools adjust themselves as wisely as possible to the new conditions to the end that no boy or girl shall have less opportunity for education because of the war and that the Nation may be strengthened as it can only be through the right education of all its people."
