BABIES MUST HAVE MILK

"You get more calories to the penny from milk than from any other food even at the present price," said Dr. E. J. Labbe, specialist, who returned recently from Europe and who spoke at the State Fair and at other patriotic gatherings. Dr. Labbe told of the children he treated in the Red Cross children's hospital in Evian, on Lake Geneva, in France. The little French and Belgian refugees were wan and weak and almost lifeless. A milk diet soon brought good results and the babes thrived. "But," said Dr. Labbe, "they will never entirely shake off the marks made by the months in which they were starved for milk. Children must have milk if the race is to go on. It is every man's and every woman's duty to do all in his power to keep the herds of Oregon alive. Feed men, mill men, dairymen, householders, dealers, everyone must co-operate. The babies of the world must be saved."
