Ira Neil and his mother are visiting at the Dalles.

Fred M. Rowley, representative of the Commerce Safe Deposit and Mortgage Co. of Portland, was in town the fore part of the week. He is busily engaged in preaching financial salvation through thrift and methodical saving. His company affords a safe and easy way for so doing. He is a most clear and persuasive talker, and will convict you of the folly of not saving, convince you of its necessity and help you bring forth fruits meet for repentance, by offering bonds on the easy installment plan. If we had only met him earlier in life, we might have been living now in a mansion on Easy Street.

The people of the town, should cheerfully comply with the restrictions on the use of water for irrigating purposes, as published on front page. It will be inconvenient but not nearly as much so as a water famine.

**The Board of
Lubrication Engineers**

Our Board of Lubrication Engineers study the lubrication needs of each make of automobile.

These experts have determined the correct consistency of Zerolene for your make of automobile. Their recommendations are available for you in the Zerolene Correct Lubrication Charts. There is a chart for each make of car.

Zerolene is correctly refined from selected California crude oil. It keeps its lubricating body at cylinder heat, holds compression, gives perfect protection to the moving parts and deposits least carbon. It is the product of the combined resources, experience and equipment of the Standard Oil Company.

Get a Correct Lubrication Chart for your car. At your dealer's or our nearest station.
