Ford

THE UNIVERSAL CAR

Out of the more than 3,000,000 Ford cars now in use, about sixty percent have been sold to farmers. Probably no other one thing has brought to the farm so much of comfort and profit as has the Ford car. It has enlarged the social life, doubled the facilities for marketing, brought the town next door to the farm, multiplied for the farmer the pleasures of living. A family car without an equal in low cost of operation and maintenance. We solicit your order for one now because the demand is large and continually increasing.

This he expects to do, his subject being "The Voice of God in Reconstruction."
