*NOTHING DOING ANY MORE with Mail Order Goods See what you buy. Get KNOWN RELIABLE GOODS at our STORE.*

A MAN OUGHT NOT TO BE SHOT OR PUT IN AN INSANE ASYLUM BECAUSE HE SENDS AWAY AND BUYS HIS HARDWARE FROM A MAIL ORDER HOUSE. HE ONLY NEEDS TO BE TAUGHT THAT HE CAN BUY BETTER GOODS FOR LESS MONEY AT HIS HOME STORE.

WE DO NOT WANT YOUR TRADE JUST BECAUSE IT KEEPS OUR MONEY AT HOME. BUT BECAUSE YOU CAN GET BETTER STUFF FOR LESS MONEY THAN BY SENDING AWAY.

THEN YOU HAVE NO FREIGHT TO PAY: YOU SEE WHAT YOU BUY BEFORE YOU BUY IT; YOU GET IT THE DAY YOU WANT IT; AND WE STAND BEHIND EVERYTHING WE SAY AND SELL.

OUR HARDWARE IS THE BEST: IT STANDS THE TEST.

**THE UNIVERSAL CAR**

To make sure of getting a Ford car, buy one now. Don't wait until spring but buy one now while deliveries are possible. Even next month is an uncertainty. The number of Ford cars allotted to this territory is limited and specified. Even to get our allotment, we must have real, bona-fide orders for cars. Just so many cars allotted us; just so many will get cars; will you be one of them? Those who order their cars now will be protecting themselves. If you would be forehanded, get your name on an order today.

**HOGS!**

It has been, we all will agree, very hard for the farmers to pay high prices for feed and hogs dropping off in price, but from the best authority hogs have reached the bottom. So don't get discouraged, look for a better market from now on.

When ready,

**BACTERIA DESCRIBED**

(Continued from Last Week)

Bacteria and one celled animal parasites are man's invisible foes and are to be found anywhere that they find a favorable environment as dirty places, stagnant water, decayed debris, etc. Louis Pasteur, a noted bacteriologist, said, "It is within the power of man to cause all parasites disease (disease mostly caused by bacteria) to disappear from the world."

The way to do this is by means of proper sanitation. Every man, woman and child in the world should do his bit in cleaning up all places that are favorable for the growth of their enemies. Most towns and cities are practicing sanitation, but Estacada is not. It is estimated that sanitary precautions would save 3,000,000 lives yearly in Europe and America. Surely Estacada can and will do her bit.

Taberculosis, typhoid fever, diphtheria, pneumonia, blood poisoning, diarrhoea and a score of other diseases ought not to exist. A good deal more than half of the present misery of this world might be prevented and this earth made cleaner and better by the co-operation of everybody in cleaning up everything and place that might have a disease germ.

Fire will kill disease germs. Then burn all debris and useless trash. Places where fire cannot be used may be disinfected with carbolic acid, formalin or formaldehyde, lysol or bichloride of mercury. The sun will do his share in killing disease germs if the places are cleaned of rubbish and left exposed so his sunbeams will reach all parts.

Knowing what the inhabitants of this swamp are, we think that it is proper to drain it, for these germs may be disease germs, and if they are it is a good place for disease germs to multiply.

This place may be easily drained if the street was graded and the water drained from both sides into the gutters and emptied into the sewer at the corner near Lichtborn's store. Even though it be necessary to use tiling it would not cost the city much and it would greatly improve the appearance of Estacada.

**Notice to Subscribers**

It is becoming more and more expensive to publish a paper. Our bills for paper and other expenses have to be met promptly. We expect prompt payment likewise on part of those owing us, as we are dependent on the receipts to meet our bills. There is a large number of subscriptions over due. We shall be grateful if those who are behind will please settle at once as we need the money.
