Intake Clogged by Mud

Monday night about 8 o'clock, Estacada's water supply was cut off. The trouble was at the intake which was clogged up with mud caused by the washing of the recent heavy rains. Every one was inconvenienced for the time being. A crew of men was rushed to the intake Tuesday morning, and after several hours work, the water was flowing again in the mains, but contained too much real estate to be pleasant. Some means will have to be devised whereby it may be filtered.
