There is Only One Way

To save money. That is to begin with the first dollar. You can't save the second dollar first. You can't wait until you get a big lot of them to put in the Bank, for most people don't get them that way.

Bring in that first dollar and start a Savings Account and then the other dollars will accumulate, with proper and persistent effort on your part, and the interest that you will receive will be a very material factor in the increase of the deposit. **BUT DO IT NOW.**
