Mary Ely.....	12
Gladys Miller.....	59
Mildred Douglass.....	10
Lavetta Vrooman.....	21

### STATE CHAMBER TO EXPAND ACTIVITIES

State-wide Appeal For Budget  
Made to Provide For De-  
velopment Program.

What is the plan of the expansion movement of the Oregon State Chamber of Commerce? How is it to be carried out? What is it for?

These are the three questions uppermost in the minds of the majority of those who have been informed of the movement which the State Chamber launched April 19th with a survey of the state to set up preliminary organization and establish a direct connection with practically every community in the thirty-six counties of Oregon.

The expansion movement by way of explanation might be divided into three distinct classes.

These are:

First—A survey of the state.

Second—An educational campaign to be carried on through local newspapers and by mailing literature pertaining to the movement direct to industries, firms and individuals interested in the development of the state.

Third—The intensive organization work at which time a state-wide canvass will be made, county by county, to raise a budget to enable the Oregon State Chamber of Commerce to carry on its program of development work for the state on a broader, more comprehensive scale. This canvass will be made throughout the state during June and July.

This budget is to be obtained by popular subscription. The appeal will be state-wide and to everyone interested in the development of Oregon and his particular community. It is believed the response will be met by the manufacturer, the merchant, the farmer and the individual, for each is vitally interested in seeing Oregon forge ahead and develop its advantages and resources.

Industrial developments depend on two factors: Natural resources or raw materials, and proximity to markets for manufactured products. Granted these and sufficient encouragement development inevitably follows.

Oregon has the raw materials and natural resources. It will be the purpose of the State Chamber of Commerce under its expanded program to acquaint the world with these facts, and through direct solicitation, get industrial management to consider Oregon as a site for their industries.

Furniture and wool manufacture in Oregon are in their infancy. So is the canning and preserving of fruits. With its vast resources in water power, its labor market, geographical location, Oregon offers many advantages to the manufacturer who, however, must first be interested in Oregon and know its advantages.
