**A Man is Known**

**By His Work**

Frank Covert, for 18 years a resident of Cabool, has sold his home here and will go to work for the government in a ship building plant on the Pacific coast. The job pays an expert carpenter \$8.00 a day for 8 hours work and a man with Mr. Covert's ability will not remain an ordinary workman but a short time, he will soon be placed in a position as foreman or something of the sort.

The numerous friends and acquaintances of Mr. Covert in South Missouri will learn with regret that he is going to leave and the country will suffer the loss of one of the best contractors and builders in this section of the state.

It is safe to say that Mr. Covert has built 80% of the buildings in Cabool in the last 18 years as well as superintending buildings in other towns around here.

He only finished up the bank building at Licking recently and a few years ago he put up a store building for Duckett at Pomona, that is the largest of its kind in this part of the state.

When Cabool put in miles of concrete side walk, Frank Covert constructed about 75% of them.

Frank was born in New York but removed to Michigan when a child, after reaching manhood he went west for his health, coming to Cabool from Utah. While we regret to see him leave, we join with his many other friends in wishing him and his family, success, health, and happiness in their new home out west.

The above article is taken from the Cabool Enterprise-Press of Cabool, Missouri, dated May 9, 1918. Mr. Covert recently arrived here and has concluded to make his home in Estacada, and will be pleased to meet you in a business way or socially. 7-15-22
