

By an unfortunate oversight we omitted the year of his birth in the obituary last week of Arthur Duncan. He was born September 22, 1900, so he was nineteen years, nine months and three weeks at the time of his death on July 15.

Water Users Attention!

Water for irrigation May be used from 6 to 8 A. M. and from 7 to 9 P.M. each day.

VIOLATIONS OF THESE REGULATIONS WILL BE PROSECUTED

By Order Common Council.
H. BOYER,
City Marshall.

Why the Electric Cleaner?

There is really no comparison between the ease and thoroughness with which an Electric Cleaner removes dirt and the difficulty of sweeping.

True, one CAN clean rugs and carpets without an electric cleaner. A broom or carpet sweeper will brush up SOME of the dirt; and if you like the exercise and have plenty of time and strength a broom and a carpet beater will do the work after a fashion.

In the same way one can wash without soap. Water alone will remove some dirt if applied with enough "elbow grease."

But people use soap because it cleans more easily and better than water alone.

For the same reason people use Electric Cleaners because they clean more easily and far better than other methods.
