The University includes the College of Literature, Science and the Arts, the Graduate School, the School of Physical Education, and the professional Schools of Law, Medicine (at Portland), Architecture, Commerce, Journalism, Education and Music.

High standards of scholarship are made possible by an able faculty, well equipped laboratories and a library of nearly 100,000 volumes.

Supervised athletics are encouraged and every attention given the health and welfare of the students.

With a heightened confidence gained by the recent expression of public support, the University is now entering upon an era of large development and extended usefulness.
