

A State Paralyzer

In an address before the Oregon State Bankers' Association, C. S. Hudson, president, brought out new points in regard to the interest bill to be voted on Nov. 2nd, which have a direct bearing on every citizen and every section of the state.

He said, "If the amendment should pass the State of Oregon could not sell 5% road bonds and road work would stop."

"Farm values would be destroyed as few sales are made with entry cash consideration and mortgages could not be made at 5%."

"Live stock and wool business would suffer in same way, no one would loan to growers at 5%."

"City and county finances for bond issues would be paralyzed—no 5% money."

"Timber purchases would meet same fate as none are financed on a 5% basis."

"Interest on savings bank accounts would be knocked out entirely."

"Loans by building and loan associations would have to stop."

"Sales on installment plan would be discontinued as accounts would not be carried at 5%."

"Local banks would be virtually put out of business."

And so it would be right down the line with every business and every individual.

Concluding, Mr. Hudson said, "The passage of this measure would serve notice on the world that we not only did not want outside capital, but that we desired the withdrawal of investments from our State and that financial pestilence prevailed in Oregon."

Around the State

Forty thousand acres of pine timber, estimated to contain 1,000,000,000 feet, near Klamath Falls, are reported to have been sold by the Hopkin's estate to the Weyerhaeuser Company. The tract brought close to \$2,500,000.

Another big fruit and vegetable cannery, the seventh owned by the A. Rupert Company, has just been completed at McMinnville, Oregon, at a cost of \$50,000. This gives the concern a capacity of 750,000 cases during the season, an output that means an expenditure of about \$2,250,000 for farm and orchard produce. During the past eight months \$150,000 has been spent in improvements and enlargements for the various Rupert plants.

Rain caused little worry in the hop section of Marion county and few losses occurred on account of inclement weather. The Oregon crop this season is estimated at 50,000 bales.

Timber is to be taken out of the Ronde valley by the Deer Creek Lumber Company, a Washington corporation, which recently purchased 12,000,000 feet of holdings near La Grande, Ore. The consideration was \$25,000.

Salem, Ore.—Discovery of a hybrid prune, the "New Oregon," which experts declare will revolutionize prune growing in the entire northwest has been announced by Andrew Vercler, a Polk county orchardist. Tests showed the fruit superior in texture, sugar, acidity, content, drying proclivities and carrying quality of the tree.

BISSELL ITEMS

Mr. and Mrs. Julius Paulsen were transacting business in Estacada last Wednesday.

Mr. and Mrs. Theo Harders and Albert Lins attended the Artisans' dance in Estacada last Saturday evening.

Roy Maxwell who has been working in Portland for the past few months returned to his farm at George last Thursday.

GARFIELD BREVITIES

Miss Nodiene Anders is attending high school in Estacada.

Mr. and Mrs. C. Looney were in Salem last week, attending the fair.

Prune growers in this section have lost at least 50% of their crop.

Mr. and Mrs. Anders spent the week end visiting their daughter Ruth in Salem.

Garfield Grange, No. 317, will hold its next meeting the first Saturday in November. An all day session with a good program and lots of eats, and new members to be initiated.

Patrons on Rt. 1 want to extend their thanks to W. K. Corbin and others, for by their efforts a repeat of 1½ miles of service was granted. Now if our good road supervisor will only fill in a few chuck holes, all will be happy.

Mr. and Mrs. Willis, of Roseburg, have been visiting at the Jim Botkin's home. Mr. Willis is an S. P. conductor, Mrs. Botkin and two children accompanied them. Roseburg is Mrs. Botkin's home town, and it is the first visit for several years.

East Clackamas county has the finest fruit land in the state, no exceptions, and hundreds of acres are idle. But until the road commissioners wake up to the fact that the farmers in this section pay taxes, and unless they get the money that is intended for them, their produce is of no consequence, for without roads why raise crops?

Firm Changes Name

We wish to inform the public that W. H. Kandle has purchased the half interest of D. H. Morgan of the Morgan Bro's Feed Store, and has taken possession. It will now be known as Estacada Feed Co., and be run as a first-class feed and grocery store.

By courteous treatment and fair prices we hope to retain all the former customers and add many new ones.

We both have been here a number of years, and we like the place and the people, and we are here to stay, and serve you to the best of our ability.

Come in and inspect our line of Feed and Groceries.

We buy all kinds of Farm Produce.

Catarrhal Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists, 75c.
