A Worthy Suggestion

The following letter from Rufus C. Holman, Multnomah Co. commissioner, contains a suggestion which seems to us a wise one. In the budget for 1921 the taxpayers are asked for an appropriation of \$10,000 for the purchase of a poor farm for Clackamas county. Commissioner Holman proposes that the Multnomah poor farm be used instead and at a saving to our taxpayers.

"I wish to most respectfully suggest that Clackamas county make arrangements with Multnomah county for the board and lodging of its indigent poor, at the Multnomah County Farm, rather than make the expenditure proposed. I believe that Multnomah county can give Clackamas county this service at a cost to Clackamas county possibly less than Clackamas county can itself supply the service, for the reason that Multnomah county is already established in this work and is caring for about 300 inmates a day now. I believe that the larger the number the less the per inmate day cost. Moreover by such an arrangement Clackamas county will be saved the entire cost of the investment for lands, buildings and equipment. Multnomah county already has given similar service to several other counties in the state, and with the good roads available between Oregon City and the Multnomah County Farm, I see no obstacle in the way of my suggestion, providing it is received with approval by Clackamas county. Moreover, I wish to advise you that a report has just been prepared by a committee appointed by the governor, of which I am a member, recommending that rather than each of the thirty-six counties of the state operating its own individual county poor farm, that there be three or four institutions of this nature located at those places in the state which are most convenient for the purpose."

RUFUS C. HOLMAN,
 County Commissioner.

Christmas Story by

Former Estacada Resident

Mrs. J. E. H. Simpson has a pretty little story in the Christmas number of the Portland Spectator. It is entitled "The Great Birthday Party" and contains a much needed Christmas lesson. It relates how the inhabitants of a village celebrated the birthday of a man who was the patron of the village, and how they went to work to make the day one of feasting and exchange of gifts among themselves, as well as helping those in need of support. But in all this the man whose birthday it was, they left out in the cold. They did not even pay a call to him at his house to thank him for his goodness. Well, that is the way Christmas is kept by so many. The House of the One whom it honors is forsaken.
