

Mr. and Mrs. Burt Moore have leased the house belonging to Ed. Bates, which is occupied by Ed. Douglas, and will move into it as soon as it is vacated.

Ed Douglas has bought a new 3½ ton Kleiber truck, of Wilcox Bros. We are sorry to learn that he will shortly remove with his family to Molalla.

**New Use for Prunes**

It is now the prune versus the raisin, when it comes to mince meat: In another industry the west is challenging the east, and that is in the manufacture of mincemeat, made with prunes instead of raisins.

At the Eugene plant of the Oregon Growers Co-operative Association, a mincemeat is being manufactured in which prunes are being used, and from all accounts of those who have tried the Mistland prune mincemeat, it has far better taste than that manufactured by eastern packing houses using raisins.

It is a fact, that practically all the mincemeat sold in the west, is manufactured by the great packing houses in the east. It is also a fact, that when the Oregon made product with its prunes is compared with that manufactured in the east, the home-made mincemeat has far the best of it.

**Want and For Sale Column**  
5 cents per line. Cash in advance
