Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Medicine is taken internally and acts thru the Blood on the Mucous Sur- faces of the System thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. DOES IT PAY TO WORRY ABOUT APPENDICITIS?

Can appendicitis be guarded against? Yes, by preventing in- testinal infection. The intestinal antiseptic, Adler-i-ka, acts on both upper and lower bowel removing all foul, decaying matter which might start infection. Excellent for gas on stomach or chronic constipation. It removes mat- ter which you never thought was in your system and which nothing else can dislodge. One man reports it is unbelievable the awful immunities Adler-i-ka brought out. Estacada Pharmacy.

ECONOMY. Economy of operation is one of the outstanding features of the New Light Six. Its light weight and scientific balance induce unusually low fuel consumption and high tire mile- age. With the standard 32x4 cord tire equipment, you will average twelve to fifteen thousand miles. Perfect and efficient combustion is obtained by the arrangement of the intake manifold and internal hot spot, exclusive Stude- baker inventions. By this new and exclusive construc- tion, the gasoline is completely vaporized and all of it is used in the actual development of power. This prevents the accumulation of unburned gasoline in the combustion chambers and the consequent seepage of raw gasoline into the crankcase. The result is increased economy in gasoline and lubricating oil and the absence of carbon deposits. You can have the advantage of this motor's wonderful economy and the satisfaction of its smoothness of operation only by owning a STUDEBAKER LIGHT-SIX.
