The social given by the Garfield ladies on Friday evening, was a decided success. The hall was beautifully decorated to represent harvest time, a splendid program was given and refreshments served cafeteria style. The proceeds were for the benefit of Nora Memorial church.

Christian Church Notes

Every night this week Group Evangelist Williams will preach upon subjects that are of great interest to the people of Estacada. His messages have been appreciated very highly. This week will close his time here. Don't miss a service for he will explain in each meeting the difficult passages of scripture, and also will explain the usages of words and expressions such as sanctification, born again, change of heart, etc.

The services will close next Sunday with all day service. S. S. at 10 a. m., communion and preaching at 11. In the afternoon there will be services and round table discussion on the work. Delegates from other churches will be here.

New Delivery Truck

The People's Store, in order to cope with its volume of trade, has found it necessary to put on a larger truck wagon than the "divver" it has been using. C. E. Kilgore converted his automobile into a handsome delivery truck, with canopy top. The body is painted a dark glossy green, and the sides of the car doors bear the names of the store and its proprietors in gold letters. George Pointer did the painting and needless to say he did a No. 1 job.

As he has completed his third year here, it is possible that he will be transferred elsewhere. F., that teams from Oregon City and Molalla will be here at the District Convention, to compete in the exemplification of the First Degree of Odd Fellowship. Other teams may enter also. A silver cup will be presented to the winning team. From Sandy and other towns comprising the district, the same story is told: "We are coming with strong delegations." Off for California

Saturday morning, Mr. and Mrs. E. W. Bartlett start on their journey to Colton, California, where they will make their future home. They have been residents of this city for the past eleven years, and identified with its growth and development. A large circle of friends will miss them and are sorry to see them go.

Mrs. Bartlett has been actively connected with the social and civic life of the city in various positions, being city treasurer, and member of the former civic improvement club, and later of the library association. She is noted for her kindness and sociability, always ready to aid a good cause. During the war, she did heroic work for the various drives. Mr. Bartlett has always stood by the town and furthered its interest in a number of ways. As mayor he straightened out the water tangle and other kinks in municipal affairs, giving most generously of his time and legal knowledge to this end. Although a strong Republican in politics, he is most democratic socially, and a good mixer, treating everyone with a bonhomie which has won him many friends. Their children were educated in our high school, and their daughter Helen, now Mrs. Robert Smith, being married here. Ken, their son, distinguished himself, both at the U. of Oregon and in war service overseas.

Mr. and Mrs. Bartlett have been Oregonians most of their lives, and no doubt will miss the old state, but the desire to be near their daughter induced them to make the move. That their future years may be prosperous under the sunny skies of California, and that Estacada may see them again in 1925, if not before, the writer feels are the wishes that will accompany them as they depart for the golden state.

Miss Murray Married

Cards have been received announcing the marriage last Saturday, Sept. 24, at Minneapolis, Minnesota, of Miss Vere Murray to Herbert W. Coddington. The bride was a member of the high school faculty last year, being the domestic science teacher, and was very popular both at school and socially. Mr. Coddington is a business man, and the newly married couple will make their home at Waverly, Iowa. On behalf of all her friends here, the writer begs to express the heartiest wishes for their future happiness in wedded life.

My Dear Mr. Gibbs:—

Permit me to acknowledge, with sincere thanks, the receipt of your clipping recently sent me, entitled "What is Education?" I am sure you are right in your diagnosis of the case, and we shall welcome at the University all the propaganda possible, which tends toward thoroughness in the basic work of education. It is a hopeful sign when the newspapers of the state are giving serious consideration to the underlying problems which affect so profoundly the welfare of the country and the safety of the government. With best wishes and personal regards,
Very sincerely yours,
P. L. CAMPBELL,
Pres. University of Oregon.

The Men Can Do It

If you doubt our ability, come to the Methodist Church on Friday at 6 p. m., and we will serve a bully good supper, Plates 25c and 40c.

ESTACADA TRIMS FRANKLIN HIGH

As a result of consistent playing where every man was on the job all the time, the Estacada High boys won a decided victory over Franklin High of Portland last Friday, in defeating the latter aggregation by a score of 20 to 0. The Estacada boys gained yardage on line bucks, end runs and passes, none of which Franklin seemed able to solve. The spirit and team work of the home boys were perfect. No grandstand stuff was pulled and glances at the side lines were conspicuous by their absence.

The coaching system now in operation at Estacada High, calls for consistency, to the exclusion of all star-performing. What the High school wants is a football machine that can work just as smoothly minus any two or three of the first string men.

Next Friday Estacada plays Hillsboro High at 2 p. m. on the home field. Estacada will be handicapped by the injuries received by some of the players in Friday's game, but according to dope the game will be a fast one. Whether Estacada wins or loses it is up to the town people to come and support the home team.

Council Meeting

At its session last Monday night the City Council passed the ordinance regulating jitney transportation, putting the franchise at \$100 per annum, and requiring a bond for the safe arrival of passengers at Portland. Another ordinance was passed for car parking regulations and limiting the speed to 20 miles a hour within the city limits, and ordering cut-outs closed. These two were declared emergencies, and take effect immediately. Another ordinance for the assignment of the costs of the paving, recently done, was passed but will not take effect until after publication. Mrs. Bernice McCall was appointed city treasurer at a salary of \$5 per month, in the place of Mrs. E. W. Bartlett, who is leaving for California.

P. R. L. & P. Stock Sale

Construction of a 75,000-horsepower hydro-electric plant on the Clackamas river, 25 miles above Cazadero, is the principal objective of the Portland Railway, Light & Power Co.'s decision to sell \$10,000,000 of 7 per cent prior preferred stock.

The improvement, which will turn on the successful sale of the new securities, will probably be started with one unit of the plant, the whole of which may cost several million dollars.

Fifty men are now at work building a road that will make the site of the proposed plant available. As high as 1500 men have been employed on plant construction work by the company. According to President Franklin T. Griffith of the company, the proposed plant would generate as much power as the combined present plants of the company.

Prize Winners

Lawrence & Son, of Springfield, continued their success with their Jerseys at the Multnomah County Fair, which they made at the Clackamas County Fair. They won the following premiums: Bull 3 years and over 1st and 2d; cow 3 years or over 2d and 3d; heifer junior calf 1st; herds grand and senior champion.
