Marsh and Holgate did a little detective work the other day. He noticed something queer about the license plates on a car. On examining them he found the last figure of the year's date, 1922, was too near the end of the plate. Further examination disclosed that these were 1921 plates skilfully altered and painted yellow. The offender is out on bonds.

Notice

Requests for Health Nurse

The following are requests that came in during one week, to the office of the county health nurse.

In our neighborhood a man with three young children is said to have tuberculosis. He is destitute. The neighborhood club will care for their ordinary needs would it be possible for you to go to their home and advise them so that there will be less possibility of the children's becoming infected?

Would it be possible for you to come to my school, I believe there are several cases of bad vision and unhealthy throats and the parents pay no attention to what I have advised. Perhaps you could impress the need of care. Contagious diseases are very common in this school.

Could you tell me if a child living in a home where there is whooping cough, should be allowed in school?

Could you arrange free care for a crippled child? We do not know the routine or the possibilities.

May I bring my little girl to see you? I think she needs glasses.

Start Them Right

Each and every poultryman has, or expects to have in the near future, a bunch of baby chicks.

We carry, and recommend BLATCHFORDS CHICK MASH for baby chicks. Why?

- Because it starts chicks right;
- It grows them rapidly;
- It matures them early.

Blatchfords Calf Meal at All Times

We have a good supply of Clover, Red, Alsike, Timothy and Vetch seeds for your spring sowing. A good supply of stock tonics, and remedies.

The Story of Our States

By JONATHAN BRACE

XXIII.—MAINE

OBSURED in the haze of antiquity the old Icelandic sagas record a voyage in 1000 by Leif, son of Eric the Red, who sailed from Greenland to Labrador and down the coast of Maine. The next probable voyage to this coast was by John Cabot in 1497 and later by his son Sebastian. It was, however, Capt. John Smith, the leading spirit of the settlement at Jamestown, who sailed as far north as the Penobscot and first drew a rough chart of it.

In the grant by James I to the Plymouth Colony Maine was included in their territory. Opposition to the Plymouth Colony arose among the king's courtiers and Sir Ferdinando Gorges and Captain Mason succeeded in obtaining for themselves rights to the country between the Merrimac and Kennebec rivers. This they divided, Gorges taking the northern section. Meanwhile Gorges had sent over a small colony to the mouth of the Kennebec, but this settlement was soon abandoned. The first permanent settlement was made in 1625 at what is now York, Massachusetts objected to Gorges' claim and finally annexed all the territory up to Casco Bay and called this northern section the District of Maine. Maine was dissatisfied with the rule of the mother state and by 1820 succeeded in being admitted to the Union as the twenty-third state.

Maine was the first state to adopt prohibition. In the beginning Maine was strongly Democratic. It was largely for this reason that she objected to being ruled by Massachusetts which was Federalist. Since 1856, however, Maine has been decidedly Republican. It has six electoral votes for president.

The name Maine was so designated in the charter of 1639 in which Charles I granted this land to Gorges. It had already been commonly used by the sailors as distinguishing the mainland from the many islands along the shore. The nickname for the state is the Pine Tree State. Its area is 33,040 square miles, which is practically as large as the combined area of the other five New England States. (© by McClure Newspaper Syndicate.)
