Miss Betty Wise, who was formerly associated with V. W. Hauser in the management of the Estacada hotel, was here the first of the week.

Owing probably to the crowds in Portland the Friday afternoon mail for Estacada failed to reach the train in time, so none arrived here till next morning.

A letter received from A. J. Mills, now of Enumclaw, Washington, states that he and Mrs. Mills are quite well for people seventy years young. He has built a house and has work. He does not have as good a garden there as he had in Estacada, although the climate is good, and there is an abundance of fine, clear water.

Mr. and Mrs. George B. Weatherby shipped their household goods and left on the evening train for Portland last Monday. They will sail from there on Saturday on the S. S. Senator for San Diego, arriving at that point July 7th. From there they will proceed to their new home at Escondido, where they have purchased a small chicken ranch. George B. has promised to write a letter for the NEWS about their trip, and later on about their new location. We regret their departure and wish them the best of health and happiness.

Back From California

Otis Wagner arrived home Monday afternoon from San Diego, Calif., where he spent the winter. He made the trip in his Chevrolet, starting the 20th, thus taking six days for the journey. He said the roads are fine in California, but when he struck Oregon it was different. But the badness of the roads was mainly due to work being done on them preparatory to paving, so this condition promises eventually to be remedied. He was forced to make several detours which delayed him considerably. However the trip was uneventful aside from several blowouts. There is much travel along the route and cars are passing all the time.

The Water Supply

Already there are indications of a shortage of water again this summer. Last Sunday the supply in the reservoir was very low, and we are told many of the pipes are springing numerous leaks. Monday evening on the hill there was no pressure so the gardens could not be irrigated, and the next morning the water stopped entirely for a few minutes. Something should be done as every summer the same trouble occurs and grows worse. Sooner or later the matter will have to be taken up, and it may as well be sooner as later. Of course this will mean extra cost and taxation, but this will be cheaper in the end than continuing a condition which endangers the health and property of the people of the town. If a fire ever breaks out it will be sure to happen when the season is dry and the water supply is nil.

Of course the city council is not to blame, as the condition is an inherited one, and the water committee is indefatigable in its efforts to cope with and relieve the situation.

Among those who motored to Portland last Friday afternoon to see the parade, were Mr. and Mrs. W. F. Cary and children, Mrs. A. E. Sparks and Mrs. N. B. Ecker.

Miss Jennie Burns, sister of F. E. Burns, arrived last Wednesday from Michigan, to spend a few weeks visiting her brother and family.
