Swinging a Circle

Mr. and Mrs. H. H. Smith and daughter, with Mr. Smith's parents, Mr. and Mrs. R. A. Smith of Bellingham, Wash., returned home Friday night after a delightful trip to the Oregon caves and Crater lake. They went by automobile and swung a complete circle, going from here to Albany, Corvallis, Eugene, clear down to Holland, whence they went to the Oregon Caves. After this, they returned to Grants Pass and from there went thru Medford to Crater Lake, around which they drove, a distance of thirty-six miles. Mr. Smith says he never saw water of such a deep blue before. The route on their return home was via Bend and the Deschutes country to the Dalles and thence to Portland and Estacada. The country in the Rogue valley was beautiful and the fruit crop immense, but there will be an enormous loss owing to the railroad strike. The Deschutes country has good crops but it is all dry farming and most of the men were away with their stock on the ranges. The trip proved a most enjoyable one, and covered 946 miles.

Goes to Conference

The Rev. and Mrs. A. F. Lacy leave the beginning of the week for Salem, where the state conference of the M. E. Church will convene and last over the following Sunday. A unanimous request of his congregation was made for the return of Mr. Lacy, in which the people generally concur, whether Methodists or not. If he should be transferred he will be back anyway for another Sunday.

SNAPPY GAME LAST SUNDAY

Last Sunday the Estacada town team crossed bats with the High School Alumni. The game proved the most interesting, tho by no means the fastest witnessed on the local grounds this year.

The Alumni jumped ahead on the start by a three run lead in the first inning, but this handicap was soon overcome by the regulars who at the end of the fourth frame had traveled the circuit route for seven counters. From then on the regulars were never in any serious peril.

Jack Smith, a former high school star, twirled a wonderful game for the Alumni. He had oceans of speed and a good assortment of twisters that entirely fooled his opponents time and time again. Freck Lovelace played a stellar game at the initial sack, grabbing everything that came his way in big brush style.

John Moser and Neil Bronson both performed well on the mound for the regulars. They were hit quite profusely at first, but realized that they were up against a stiff team tightened down and held the youngsters where they wanted them.

Taking it all thru it was a good game, well worth the money. We are hoping that another game may be staged later this season between the two local teams. The final count in this one was Estacada 8, H. S. Alumni 6.

Next Sunday the game will be between Estacada and the Portland Trojans, who are gentlemen of color.

Airscape Photographer Here

C. S. Woodruff, who for ten years was the official photographer for the Portland Journal, is stopping at the Estacada hotel with his pilot Edward Hantak. He has been engaged by the P. R. L. & P. Co. to take pictures of its extension work above Cazadero clear through all along the line. He will commence as soon as the weather clears. After he is through with the railroad company's work, he is under contract with the State Highway Commission to take pictures of the Mt. Hood area along the line of the Columbia River Highway and Loop road around the mountain to Portland and the Government camp. While he is executing both contracts he will make Estacada his base of operations.

Doctors Leave

Until Dr. G. L. Midford who purchased the property of the late Dr. Morse arrives, Estacada will have only one doctor. Dr. W. Rhodes, as both Drs. Carey and McClellan have left for new locations in Washington, the former to Hoquiam, and the latter to Vancouver.

NOTICE

The Estacada schools will open on September 11th. Owing to the fact that the records for the past few years are sadly mixed up all pupils are requested to bring their report cards to school the day they register. In case the report cards are brought in, it will be possible to straighten out at least a large majority of the records and thus issue whatever credits have been earned by pupils in the past.
