Sparks' Home Robbed

Last Thursday night, while Mr. and Mrs. A. E. Sparks were attending the picture show, someone entered their home by removing the screen of a back window. A drawer in the buffet was forced open and \$85 in war savings stamps, five dollars in cash and an automatic revolver were taken, also some other articles. The robber took into the house a potato fork belonging to Mr. Sparks and left it under the bed. No clue has been found, but neighbors have since reported seeing a man in the back alley and also standing in front of this house. The robbery was done between 7 o'clock and 8:30 p. m., and it would seem, by some one who knew what might be in the house and that Mr. and Mrs. Sparks would attend the show.

Can You Beat It?

The life of the western beet sugar industry has been saved by a moderate tariff which will prevent its extinction by foreign grown sugar produced with the cheapest kind of labor.

The act also saves the western fruit and nut industry which enters largely into the manufacture of candy, from destructive foreign competition which on account of cheap labor could underbid the American products.

Boston candy manufacturers now raise a large cry to show how this protection is going to hurt the "consumer."

Mayette and Chabert walnuts and Jordan almonds must pay a duty under the new tariff of 10 to 14 cents a pound. Lower grades such as are used for making cheaper candies are taxed about 1 to 3 cents a pound. Most of the larger candy manufacturers are soon to announce new prices to meet these increased costs due to the "tariff."

One manufacturer has already increased the price of chocolates from \$1.00 to \$1.25 a pound. It is probable that only a small fraction of a pound of nuts was used in the pound of chocolates and yet the manufacturer seizes this opportunity and excuse for increasing the price of his wares from \$1.00 to \$1.25, when the tariff on a full pound of nuts was from 1 to 14 cents and on sugar about 2 cents.

Such tactics to discredit the moderate tariff which has been passed to prevent destructive competition for American industries are sickening.—The Manufacturer.

The Root Objection

"Those who oppose this bill insist that it is un-American. America is the greatest experiment in democracy. But this bill is a movement of autocracy rather than of democracy. It is dictatorial rather than democratic. It is more Prussian than patriotic. Germany built up a parental system of state government. This bill is a movement in the same direction. It smacks somewhat of bolshevism that makes the child the ward of the state."

The above is quoted from an address on the school bill by the Rev. W. T. McElveen, pastor of the First Congregational church at Portland. It expresses so clearly and forcibly our main and root objection against the bill, that we reproduce it. Frankly it would scare us stiff if we thought there was any chance of it being passed, or if so, being declared constitutional. We have not seen that any prominent educator is in favor of it, but the reverse.

The County Judge Recall

Whether or not County Judge Cross shall be recalled will be voted on next Tuesday. We know only of the matter as it has been presented in the county papers. Personally we shall vote against it on general principles, for the recall is being abused that if this continues, judges and county commissioners will be tempted to render not what is a just verdict but what seems to be popular. In the present instance the judge has met the charges of his opponents with apparently satisfactory refutations. Which side is right can only be determined by trial in court, and until so tried the judge should be given the benefit of the doubt.

Against Recall

RESOLVED, that the Waluga Civic Club, representing the districts of Goodin, Lake Grove, Waluga, Bryant and Cook, in regular meeting assembled, does hereby record itself as opposed to the recall of Judge Harvey W. Cross at the election shortly to occur in Clackamas county, and be it further

RESOLVED, that a copy of this resolution be sent the Portland and Oregon City newspapers and to Judge Cross.

C. A. McFarland, President,
R. L. Herrick, Secretary,
Waluga Civic Club.

Football Game

The Estacada High School will play Oregon City High on the home ground tomorrow, Friday, beginning at 3 p. m. Last week's game with Silverton resulted in a tie, 0 to 0. Owing to the weather the ground was in poor condition which made playing difficult.

ROAD CONSTRUCTION SHOWN IN FILMS

In spite of the rain last Friday night, the monthly meeting of the Community club was well attended. It was held in the Gem Theatre, and the program was an exceptionally interesting one that appealed strongly to those present, for it was on road matters. County Judge Cross spoke first and gave an informative address on what had been done in this connection especially at this end of the county. He enumerated the difficulties which were encountered, and which often prevented him from carrying out his wishes and intentions. He referred to the road between Estacada and Barton, which runs through Currinsville and Eagle Creek, and promised that the county would go 50-50 with the districts in getting it ready for paving. As the road was already in excellent condition, and only a few places where it lacked the necessary width, the expense would not be heavy. It is within the bounds of possibility that this road will be completed by another year. Judge Cross was followed by C. W. Kruse candidate for county commissioner, who also spoke briefly on roads.

The next feature was the showing of a series of pictures, thru the courtesy of the Staudard Oil Co., depicting the processes involved in road making. These were explained by the company's representatives, Messrs. Phamig and Stewart. A laughable incident occurred at the beginning of the evening when president Fred Bartholomew called for new business, and in response a picture was flashed on the screen of two supposed samples of the city water, one being clear and the other muddy with bugs in it. As Mr. Bartholomew is chairman of the water committee he was a little nonplussed at first. At the conclusion of the program, the company adjourned to the I. O. O. F. hall for a social time and a lunch of doughnuts and coffee.

Sad Fatality

Ennis Townsend, 35, a machinist, was burned to death, and Fred McKee, 24, wheel tender, was seriously burned when a transformer at the Bull Run power plant of the P. R. & L. P. Co. blew out Wednesday morning at about 11 o'clock. The cause of the accident was not learned, employees saying the transformer was in perfect order—Portland Journal.

The victim of this accident was a brother of Mrs. James Smith.
