## Their Millionth Car

"As requisitions for the Millionth Buick car have come from so many of our branches and distributors—and dealers as well—it will for the present remain unassigned."

Thus General Sales Manager E. T. Strong of the Buick Motor Company today disposed of the question as to the ultimate destination of the smart model 55, six cylinder sport touring car bearing upon its frame the imposing number plate of 1,000,000.

"Of course they all want this car. Not primarily for sentimental reasons, but for an intensely practical one—its advertising value. So we feel that we cannot let anyone have it without being accused of discrimination." While there may be less of sentiment than business acumen in the desire on the part of the Buick dealer to possess the millionth Buick car, there is no question that sentiment predominates in the reception of this car on the part of Buick employees. Thousands of the latter have worked on Buicks ten years or more and feel a personal pride in the accomplishment of the million mark. They stand about in groups, looking fondly over this millionth Buick, and a flood of interesting recollections find expression.

Starting with the head of the organization down to the humblest of the ranks, you will find many men who have "lived" with Buick since the days when the future of the automobile was still a matter of grave doubt.

In the field organization throughout the country a similar situation prevails. Practically all the Buick branch managers and distributors have been with the company more than ten years, and some of them considerably longer. All of these men have done their "bit" in the achievement of the million mark and naturally are imbued with a high degree of personal pride in the accomplishment.

## RECENT ADDITIONS TO THE LIBRARY SHELVES

Never since the present librarian has had charge, has there been so much interest shown in patronizing the little Estacada library, as has been shown during the past winter. If some kind benefactor would make the association a liberal donation so that the debt of \$200.00 still remaining on the building could be paid off, those who have the library most at heart would be happy. Everybody should be interested in the public library of their town or city. It is our duty to have books. A library is not a luxury, but one of the necessities of life. A small library growing larger every year is an honorable part of a city's history. Books are inspiring friends and teachers.

It has been the good fortune of the Estacada library of again being able to place on its shelves, nearly fifty books which were selected with care and bought at a reduced price. We will also have a few more, suitable for juvenile readers.

The state library books, which we have been using for the past six months, will be returned to Salem next week.

Following is a list of the new books: Cobwebs, Chamberlain; Search, Margaret R. Larmine; In Secret, Chambers; Stella Marrs, Locke; The Splendid Folly and The House of Dreams Come True, Margaret Pedler; The Best in Life, Muriel Hine; The Derelict, Phyllis Bottome; The Sixth Sense, Stephen McKenna; Queen Lucia, Burson; Kalama, McClelland; The Backslider, Lindsey; Zell, Henry G. Aikman; The Cornish Penny, Colson Cade; The Road, Tobankin; Sacrifice, Whitman; Returned Empty, Berkley; Mary Wallaston, Webster; Hope Trublood, Patience Worth; The Golden Goat, Arene-Huard; The Other Woman, Norah Davis; The Happy Family and other stories, Swinestone; Sight Unseen and The Confession, Rinehart; The Demagogue and Lady Phayre, Locke; The Age of Innocence, Edith Wharton; Daisy Ashford, her book; The Temple of Dawn, Wylie; The Isle of Seven Moons, Anderson; The Girl in Fancy Dress, Buckrose; Glory of Clementina, Locke; The Pretty Lady, Arnold Bennett; Sweethearts Unmet, Bertha Ruck; Yellow Souls, Dorota Flalan; Purple Springs, Nellie McClurg; The Daughter of Helen Kent, Sarah Comstock; Queen Lucia, Benson; The Heart of Unaca, Cullum; Timber, Titus.

## The Road Situation

A road meeting was held at Eagle Creek Friday night by the Barton, Eagle Creek, Currinsville and Estacada road districts to learn the sentiment of the people in regard to the nine mile hard surface to be laid between Barton and Estacada. Representatives of several contracting companies were present and spoke on road building. The decision was in favor of a sixteen foot asphaltic pavement.

Monday a large delegation from here and all along the line went to Oregon City in expectation that the county court would take action in regard to letting the contract. But the judge decided he was not ready to make the award and needed more time for consideration. He favored a nine foot concrete road instead of a sixteen foot asphaltic, and suggested that a visit should be made to Mulino where such a road can be seen. Further action has been postponed until the next meeting of the county court.
