Our primary aim is to produce vigorous, heavy chicks, healthy, rugged brooding stock, and first class hatching eggs. In many cases, our customers toll up bigger egg records than we do. But we hold our mature stock back as long as possible after the moult and before they begin laying as near the hatching season as possible. Thus are our customers assured of strong, rugged chicks and high quality hatching eggs.

Help the Baseball Team

Estacada is to have a baseball team this season under the management of Roy Wilcox. A dance will be given this Saturday night in the park pavilion for its benefit, in order to secure funds for equipment. This should have general support and those who do not dance should buy a ticket or make a donation to the fund. We understand that the material in the team is such that it can give a very good account of itself, and make it interesting to its opponents as well as the spectators. It is already part of the Clackamas County league which is divided into north and south Clackamas, our local team belonging to the former. The first game will be played a week from Saturday, on April 29.

Threatens Former Partner

Last Thursday Sheriff Wilson with a deputy, and reinforced by four others, including Sylvester Lawrence and Marshal Henthorn, brought to town an alleged desperado who had been making threats to get his erstwhile partner and put him in the hospital. The man's name was John J. Jones, and that of his former partner C. C. Marquette.

The two were formerly in the show business, cat and dog, in Southern California. Jones got into some trouble and was obliged to undergo an enforced residence in a California state institution. His partner came up here and rented a ranch at Eagle Creek falls, where Jones sought him after he had been released. They quarreled over the division of the show property, Jones claiming that Marquette had cheated him. The latter fled to Estacada and Jones remained at the ranch. Word was sent to the sheriff who came out to make the arrest. Jones was reported to be desperate and well armed and a crack shot so the sheriff took no chances. They expected that Jones would be in the brush but were surprised to find him in the shack. As soon as he appeared the sheriff got the drop on him. Jones submitted gracefully under the circumstances. What he might have done otherwise was shown by the fact that he had a 32 calibre rifle and about a hundred rounds of ammunition, besides a large knife. He was brought to Estacada where Justice Bacon, in default of \$500 bonds, committed him to jail.

Jones proved very affable and entertaining to his captors. It was found out afterwards that he is badly wanted at three other places, in California, so if he gets out of this scrape he will fall from the frying pan into the fire.

At this session a number of Resolutions were passed, one inviting County Agent Walter A. Holt to give a summary of the work of the past year by the extension service. This was to offset the efforts of some granges to dispense with the services of the county agent. The grange also voted \$20 for extension work. EDITOR IS BAKED FORE AND AFT

The following communication sponsored by the superintendent of the High School was received at this office for publication, and we extend to him this courtesy.

To the EDITOR of the EASTERN CLACKAMAS NEWS:

Kindly publish the following in the next issue of your paper: We, members of The Junior Class of Estacada High School, do hereby take exception to every statement in your article under the caption, "Courtesy Should Receive Courtesy."

We consider it an unwarranted attack on our class as well as the school, including other classes, faculty members, and board members.

It has been the policy of the Estacada Schools this year to extend the utmost courtesy to everybody. The editor of the Eastern Clackamas News has in no way been imposed upon. The slanderous statements you have made in regard to us must be cleared up. You stated that a large number of complaints have been coming into your office in regard to the conduct of the student-body and the Junior Class in particular. You stated that we had come down to your office, "throwing things around in a high and mighty manner." Worthy editor, you know yourself that this is malicious falsehood.

We demand that you should disclose the identity of the people who are making complaints against us to you! Our principal has severely rebuked us for this alleged misconduct and as you made this complaint straight to him it is absolutely up to you to make good and substantiate the charges.

In regard to the complimentary tickets, it is entirely within the jurisdiction of any organization whether it issues any or not. The Junior Class as well as the rest of the student-body believes in maintaining its credit by paying its obligations promptly, and in order to do that must be financially responsible. If every person who in any way aided putting on a show at the school demanded complimentary tickets a big share of the audience would be admitted free.

Worthy editor, you have the distinction of being the only person in Estacada, who has ever intimated that a complimentary ticket was due, in payment for proffered services.

We are mailing you a check for \$2.50 to cover the charges for the alleged display ad.

Finally we hope this may be a lesson to you and that you may consider your statements, both written and verbal, before issuing them in the future.

(Signed) JUNIOR CLASS.

We print the above to show we are sport enough to take as well as give. As to our alleged verbal remarks, to him, they were not accurately reported and had reference however to past experiences rather than this last one.

But while retracting nothing, for the school, and class of 1924 in particular, we have only the kindest feelings, and at any time we will be only too glad to do anything to help them out, if within our power. Our main regret is that we allowed ourselves to be provoked, but on press days everything is in a combustible condition, and a mere spark will set off a red headed temper which after years of effort is not entirely under control.

As we are no Indian giver we beg the class to keep its check. We gave the space gladly, and will do so again for any class.
