## PROGRESSIVENESS VS. AGGRESSIVENESS

In answer to Councilman Love-  
lace's claim of progressiveness,  
we wish to ask the gentleman if  
he is familiar with the terms of  
"progress" and "aggression?"  
In all fairness to your claim of  
being progressive, have not many  
of your acts as a councilman  
been that of aggression, as ver-  
ified by the records of the coun-  
cil? The records show that you  
and your family have drawn  
from the treasury of the city of  
Estacada a very large sum of  
money. Yours personally runs  
into the hundreds of dollars.  
Were you progressive enough to  
run the business end of a pick  
and shovel to earn this money?  
Was it not "aggressiveness" in  
watching the other fellow do the  
work and your bill being o. k. ed  
by the council? Do you think,  
in looking back over your several  
acts as a councilman since many  
of them have been tried out,  
have been for "progress"? If  
you wish us to be specific and  
name them, we can and will  
oblige, but to be brief we will  
agree with you if you will change  
"progress" to "aggression."  
E. S. WOMER.

A letter received last week by  
his parents, Mr. and Mrs. P. M.  
Wagner, from Otis Wagner, con-  
tained the interesting informa-

Diego, Calif., to Miss Quai Wyse.  
She is a charming young lady  
and a university graduate. Otis  
was a general favorite here and  
has a host of friends, who will  
rejoice at his good fortune, es-  
pecially as it indicates that his

been in a precarious condition,  
must be considerably improved.

good account of itself. The  
drums were purchased only re-  
cently by the club and are quite  
an improvement to the music.  
More good times in the social line  
are promised in the near future.

## Card of Thanks

## There Are Others

"I have noticed," said a Kins-  
ley sold time to the Mercury,  
"that whenever there is talk of  
spending money on improvements  
the row starts. Some folks take  
it seriously as though the world  
was coming to an end and they  
had been listed among the delin-  
quent. Time was when I used to  
throw an arm out of joint  
getting het up over such things,  
but progress went on as usual.  
I enjoyed the improvements  
with the rest and when I come  
to think of it, I haven't suffered  
as I thought I would, but have  
been benefitted with the rest."

## Small Blaze Sunday

What might have proved a se-  
rious conflagration was fortu-  
nately checked in time last Sun-  
day morning about eight o'clock.  
Smoke was perceived issuing  
from the rear of the meat mar-  
ket, and the proprietor, H. C.  
Gohring was notified, who came  
down promptly and on entering  
the market found the belt on the  
fly wheel of the ice machine  
ablaze. He quickly threw it off  
and quenched the flames, no dam-  
age being done except to the  
belt. The cause was due to the  
power being shut off temporarily  
and then being let on. The wheel  
will not start unless someone  
is there to give it a turn. The  
consequence was the leather be-  
came heated and burst into  
flame.

## TO PROMOTE STATE DAIRY INTERESTS

A meeting was called at the  
Gem theatre Tuesday night in  
the interests of the dairymen,  
to meet representatives of the  
Oregon-Idaho Dairy Loan Com-  
pany which is patterned after  
the federal reserve banks, for  
the purpose of extending aid to  
dairymen who wish to improve  
their herds. The speakers were  
Judge Whalley and Messrs. W.  
H. Warrens and Claude McCol-  
lough all of Portland. The first  
named gentleman is the intro-  
ducer of the Guernsey stock into  
this state. He is president of  
the Guernsey association, and  
owns and operates a modern  
dairy composed of entirely pure  
bred Guernsey cattle. The phe-  
nomenal growth of the Guernsey  
breed in this state during the  
past few years, may be credited  
to his activities and ability. His  
subject was on dairying with  
pure blood cows. Mr. Warrens  
who operates a substantial dairy  
farm at Sherwood, Or., spoke on  
what the dairy industry might  
become, while Mr. McCollough  
of the Portland Joint Stock Land  
Bank, dealt with the financial  
side, the relation of the U. S.  
government and federal land  
banks to the dairyman. Unfor-  
tunately the attendance was slim.

## More Paving Contemplated

At a special meeting of the  
city council last week it was re-  
solved it deems it expedient and  
necessary and declares its inten-  
tion to improve the following  
streets:

Main street from the north  
line of First to the north line of  
Third;

Second street from Broadway  
to Main;

Third street from Broadway  
to Main.

The improvement to consist of  
the construction of bituminous  
pavement from curb to a point  
eight feet from the center of the  
said streets. The cost is to be  
met by the adjacent property  
owners.

Under the recent bonding issue  
the center of these streets will  
be paved with a strip sixteen  
feet wide, and this further im-  
provement is to pave a strip  
twenty-two feet wide on each  
side of the center strip, so as to  
make the pavement extend to  
the curb. In this way the whole  
width of the street in these  
blocks will be paved. The prop-  
erty owners can pay either in  
full at once, or under the Ban-  
croft Act, in ten annual install-  
ments.

The next council meeting, on  
Tuesday, May 8, has been ap-  
pointed by the council as the time  
to hear and consider all remon-  
strances or objections thereto.

A number of the chief officials

putting in of additional switches.  
Among them were Messrs. Hunt,  
Townsend, Pumfrey and Zinc.

fee is to be served. A dance will

cada park pavilion, tickets \$1.00.

dist church met at the church
