Trap-Nested WHITE LEGHORNS

Bred for Vigor and High Egg Production.

Our primary aim is to produce vigorous, husky chicks; healthy, rugged breeding stock, and first class hatching eggs. Hence, in many cases, our customers roll up bigger egg records than we do. But we hold our mature stock back as long as possible after the moult and bring them into laying as near the hatching season as possible. Thus are our customers assured of strong, rugged chicks and high quality hatching eggs.

"Coruer Store" Pleases

The entertainment given by the Springwater young people last Thursday night at the M. E. Church, for the benefit of the Children's farm home, was very well received. In addition to the comedy some musical numbers were sung by the audience, Mrs. Harry Kitching and three little girls. Those taking part in the comedy, "The Corner Store," showed that they knew their lines and had diligently rehearsed, as all were familiar with these parts. It would be somewhat invidious to pick out any for especial mention, but the two most taking roles were Jerusha Jane Elvira Ann Boggs by Evelyn Lawrence, and Jimsey Flanigan by Neil Weir.

Grange Picnic

As Saturday, May 19, was somewhat stormy and damp, it was not an ideal picnic day, but despite the inclemency of the weather there was quite a large attendance at the 16th annual May picnic given by Eagle Creek Grange Saturday. The dinner had to be eaten indoors, which was not pleasing to all as most people would prefer to eat outside when on a picnic.

A fine program, though short, was rendered and an excellent address was made by the speaker, John D. Mickle of Portland, who is representing the Oregon Dairy company. His subject was the chemical food elements contained in milk. He showed some pictures of rats, pigs, dogs and babies, showing the effects when no milk or butter is a part of their diet.

Little Floyd Douglass of Cherryville, who recited for us, made quite a hit, being encored twice, but responded to only one. He is a fine little speaker, being only six years old. A special feature of the program was the mock wedding.

After the program there were some races of various kinds such as pie and cracker eating contests, egg and bean races and ball throwing contests, etc.

The dance, which was held in the Estacada park pavilion, was well attended.

Still Ahead in the Game

Estacada maintained its lead in the Clackamas County League Sunday, by defeating Oswego 13 to 9 in a very loose played game, Estacada's infield putting on most of the comedy. Rayberg's wonderful catch of a line drive in the eighth, Ray Lovelace's perfect peg to the plate and a swell running catch by Guy King made the large crowd forget all about the errors on the infield. John Moger pitched 9 balls for the winner, allowing 7 hits, and 3 earned runs, and he also got a home run. Next Sunday the boys play Borng here, and a battle royal is expected.

SCORE

Oswego, runs 9, hits 7, errors 3.
Estacada, runs 13, hits 12, errors 7.

Batteries: Oswego, Austin and Sheurner; Estacada, Moger and Boland.

The program consisted of the following numbers:

An amendment to the constitution was made to read as follows: "The members of the school board and their wives shall hereafter be invited to attend the annual banquet."

Immediately after the business meeting a farce comedy in one act was presented by three members of the association, Lydia Matson, Philip Adams and Ray Lovelace, which proved to be a great success.

After the banquet a large number attended the dance at the Park pavilion.

He Made Them Act

It took a scientist and a lover of Nature to make the wild Junglefolk act up before the camera. Such an achievement was accomplished by Henry A. Snow, and recorded in the picture, "Hunting Big Game in Africa." This will be shown at the Gem theatre, Thursday and Friday of next week, May 31 and June 1.

Old African hunters say the taker of the pictures exhibited a patience and persistence unequalled in the annals of animal hunting and photography. Bulldog courage utilized the most modern methods in achieving what was formerly considered impossible. High-power guns and cameras, tiring the animals by "diver" pursuit, and immediate development of the pictures on the spot, were important factors in the result.
