WHITE LEGHORNS
Bred for Vigor and High Egg Production.

Our primary aim is to produce vigorous, husky chicks; healthy, rugged breeding stock, and first class hatching eggs. Hence, in many cases, our customers roll up bigger egg records than we do. But we hold our mature stock back as long as possible after the moult and bring them into laying as near the hatching season as possible. Thus are our customers assured of strong, rugged chicks and high quality hatching eggs.

The damage was slight.

REPRESENTATIVE CROWD AT CLUB MEETING

The meeting of the Eastern Clackamas Community Club last Friday night in the Estacada hotel, proved a most enthusiastic one, and moreover thoroughly representative of the eastern part of the county. Delegates from Currinsville, Barton, Garfield, Dover, Springwater and Dodge were all present. A. G. Ames president of the club, presided and showed himself a master in handling a gathering of this kind. The business routine was brief, auditing the bills and appointing a secretary and treasurer, Soren K. Ostergaard, in the place of Phil Adams moved to Portland.

The social part of the evening, was most delightful and proved the value of the club as a get-together medium. The Eastern Clackamas band attended and played several numbers which were very appreciatively received. Another attractive number on the program was singing and dancing by a number of little fairies dressed in hallowe'en style. These were Glen Cary, Margaret Gates, Lavina Grabel, Estelle Hanson, Lois Smith, Mildred Rhodes and Berta McKinney. Refreshments were served at the close. It was decided to observe Father and Son week and President Ames appointed a committee to arrange for something suitable. Every one present enjoyed this occasion and went home looking forward to the next meeting.

A Ghostly Crew

Last Saturday night after leaving the Gem theatre at the close of the first show, we received a thrill, for a weird procession was marching round the down town square. White-robed forms like those of the sheeted dead solemnly stalked the streets. They marched across the track to the park pavilion, which they entered and we are informed mystic rites were held. Their faces were hidden by masks of linen, suggesting the veiled prophet of Khorassan. They certainly looked alarming but they interfered with no one, so we do not know whether a touch of their hands would produce a chill along the spine. One of them lifted his mask or vizard a moment and his features seemed familiar, and as he is very much in the flesh, we were reassured he was neither a spirit of health nor goblin damn'd who stood before us. A number of others not in white robes were given entrance on giving the open sesame, but we were not one of them. On making inquiry we ascertained that it was a gathering of the noted Ku-Klux-Klan, who came down from Portland and parts adjacent in a special train of two cars which were loaded to the limit, there being about two hundred of them. A number of neophytes, we understand, were initiated into the klan and its mysteries. Well, everyone to his taste. We were much diverted by the spectacle and hoped that the participants would thoroughly enjoy themselves, and went home to bed and to dream that it was Hallowe'en and the Gobble-uns were after us.
