To the Farmers of Clackamas County:

We are now in a position to offer you through the Union Central Life Ins. Company, a new TWENTY YEAR form of RURAL CREDIT LOAN (sometimes called the AMORTIZED LOAN), which is the best loan from every possible standpoint that is offered today.

The company has worked a long time perfecting all of the details in connection with this new loan but feel confident that it will take so well with you that the time has been well spent.

We have realized just as well as you have that the only real objection to our former plan was the payments during the early years of the loan very often worked a hardship on some borrowers. Then too, some rather strenuous objections were raised, mostly by competitors, to the fact that we took two mortgages. These objections are both eliminated entirely in our new loan. The payments are the same each year during the full 20 years and there is only one mortgage and that in favor of the Union Central Life Ins. Company.

There is absolutely no commission to be charged, or expense notes to be executed by the borrower.

Formerly a fee for examination of land and abstract of title, was charged, this has been discontinued and is a strong feature as this is the only company in the field that will not make these charges.

Some of the strong advantages of this loan are, the rate of interest is low, you select the best time of the year for your payments, it is an insurance against the necessity of frequent renewals, it eliminates the danger of foreclosure, you have absolute control of your money as you may pay up the loan at any time securing a discount.

We will be pleased to have you call and talk this loan over with us or upon request will mail you a circular describing the loan in detail or will gladly call upon you at the earliest possible moment.

Very sincerely yours,
WOODLE-WOOSTER CO.,
Estacada, Oregon.
