MUST GRADE EGGS BEFORE SELLING

The Dairy and Food Commission Office of Oregon has ordered grading of eggs according to the following rules:

1. A fresh egg is an egg of recent production, clean, full, with fixed air space of not more than 3-16 of an inch in depth, sweet, strong of body and unimpaired in quality. The albumen must not appear watery. A larger air space with a movable lower line indicates a stale egg, or one that is becoming weak or watery.

2. A fresh standard egg is a fresh egg as defined in paragraph 1, weighing not less than 1 5-6 ounces.

3. A fresh pullet egg is a fresh egg weighing not less than 1 7-12 ounces.

4. A fresh peewee egg is any fresh egg weighing less than 1 7-12 ounces.

5. All standard eggs, pullet eggs and peewee eggs shall be packed separately and the grade plainly marked on the end of the case showing the particular grade of the eggs in the case.

6. Second grade eggs are good edible eggs but with an air space of more than 3-16 of an inch in depth and not good enough to grade as standard of the different classifications herewith defined. Eggs known as large hatch spots, heavily shrunken eggs, and eggs with loose air space are fit for consumption but will not stand transportation.

7. Eggs known as yolks stuck to the shell, bloody rings, partially hatched, moldy eggs, black spot, black or mixed rots, and other eggs of unwholesome nature shall not be offered or exposed for sale or sold.

It shall be unlawful for any person to sell, offer for sale, or have in his possession with intent to sell, eggs for human food purposes which are not fit for human food within the meaning as prescribed in rules and regulations herewith set forth, or to sell or offer for sale any egg except for what it is, or unless it is properly marked or branded, or unless such egg has been properly candled.

When eggs are removed from the original container for resale, the true grade of said eggs must be stamped upon the subsequent container in letters of not less than one third inch in height. If placed on display for sale, a sign must be placed immediately over said eggs in letters not less than one inch in height giving the true grade of said eggs. When eggs are sold in lots of half cases or more, an invoice must accompany said sale plainly and truly indicating the grade or grades of eggs sold.

The word person as used in these rules shall mean and include individuals and employes or agents of individuals, firms and members of firms and their employes or agents, corporations and officers of corporations and their employes or agents.

Fred Bartholomew and family were the dinner guests at the home of Mr. and Mrs. Ben Tanner, Sunday.
