## Poor Old Adam's Rib

It is said that the original "Adam's Rib" caused a lot of trouble in the Garden of Eden. Well, whatever trouble Eve may have caused is more than atoned for by Mathilda Ramsay, another product of "Adam's Rib," in a new Cecil B. De Mille production by that name.

The story deals with the passions and frailty of modern young women, and it is a tremendous love romance filled with thrills and appeal. The vision scenes of the caveman period are said to be typically De Mille in conception and execution, and vest the production with an interest no ordinary motion picture can attain.

This remarkable film will be shown tonight and tomorrow at the Gem theatre. Be sure and see it.

## The McNary-Haugen Bill

The McNary-Haugen Export Corporation Bill, now before Congress is receiving the hearty support of Representative W. C. Hawley, who has issued the following series of questions and answers regarding the measure: What is the purpose of the McNary-Haugen Bill?

To equalize the farmer's dollar with the other man's dollar. How will it accomplish this purpose?

By the establishing of an export agency to handle wheat and other major farm products if and when necessary, under provisions which will maintain legitimate prices.

Does this mean that the government is going into the general farm marketing business?

No, it will operate through regular channels, and deal only as necessary to maintain proper prices.

Will it destroy cooperative marketing?

It will encourage cooperative marketing by assisting cooperative associations in a task which they cannot accomplish without such aid.

What effect will it have on the millers?

It will relieve millers from the danger of serious price fluctuations, due to speculation or other cause.

What will it do to present prices of farm products?

It will increase present prices for wheat from 40 to 60 cents a bushel, hog prices about 40 per cent, cattle about 30 per cent.

Will it increase production?

Not more than profitable prices for farm products secured by any other means, and profitable prices must be obtained unless American agriculture is to perish.

How does it affect businessmen and banker?

America is an agricultural nation. The success of all depends on the success of agriculture. The McNary-Haugen Bill means success for agriculture.

Is it fair to other industries?

Exactly. Under the bill farm prices increase only as prices for other products increase. It does for the farmer only what other legislation already is doing for others industries.

## H. S. Principal Chosen

O. T. Olson at present principal of the high school at Philomath, has been unanimously elected by the school board for principal of the Estacada high school for the ensuing school year. He is very highly recommended by Superintendent Roy E. Cannon of Gresham. Mr. Olson is a native of Wisconsin, and graduate of Gustavus Adolphus college in Minnesota. He has had twelve years experience in teaching, eleven of which have been passed in Oregon. Those who had the pleasure of meeting him personally last Saturday, when he was in town, were very much prepossessed with his appearance and manners. The board believes it made no mistake in his selection, in which belief we are inclined to concur.
