**STATE MARKET AGENT  
DEPARTMENT**

BY C. E. SPENCE, MARKET AGT.

Before the potato grading and inspection law was put into enforcement by the state market agent, Oregon's potatoes were considered the poorest stock on the Pacific coast markets. Today they are heading the markets. This shows what grading and an honest pack can do.

Before grading, labeling and inspection were enforced, the Department of Agriculture of San Francisco made the published statement that Oregon potatoes were the riskiest stock on the San Francisco markets, and the only way the dealers would touch them was on consignment. The marketing assistant stated that Washington and Idaho potatoes had always found a good demand there.

Recent federal market quotations from San Francisco are as follows: Oregon, U. S. No. 1, \$2.35 to \$2.40; Yakima from \$1.90 to \$2; Idaho, \$2.25 to \$2.30. Los Angeles quotations: Oregon Burbanks, U. S. No. 1, \$2.50 to \$3; Idaho, \$2.40. Portland quotations: U. S. No. 1, \$2.25 to \$3; No. 2, \$1.50 to \$1.75.

Enforcement of this law has brought the Oregon potatoes up from a "take your chance" consignment risk to topping the California market price. The state market agent thinks it has been well worth while. While the law has the loopholes of most new laws, and it would have been difficult to have enforced it with a club, yet the market agent department has had the cooperation of nearly all dealers, retail merchants and big growers and it has worked out most satisfactorily. The supply has been reduced by keeping the cull stock on the farms for feed; the demand has been greatly increased by the consumers having confidence in the established grades and there is confidence on the part of the growers and dealers that Oregon will have a future big place in the best markets.

State Market Agent Spence states that Portland grain dealers have been buying carloads of screenings from Canada, which are ground into mash for chicken feed or given a bath in molasses and sold for dairy feeds. Mr. Spence had a sample of one of the cars analyzed and the result showed 79 per cent of weed seed, chaff, dust and other dockage and 21 percent of cracked wheat. The daily market reports quote chicken mashes and dairy feeds \$50 per ton and up. The farmers of Oregon get from \$26.66 to \$30 per ton for their first class wheat and then they pay \$50 and up for Canadian screenings that have but 21 per cent of wheat and a smear of molasses. If the wheat growers were organized half as strongly as the grain dealers are they would not have to sell good wheat at less than production cost nor buy back foreign screenings at nearly double the price of their wheat.

At a recent farmers' meeting states C. E. Spence, a Polk county farmer related that he sold a beef hide and that the price he received for it was but 60 cents. A Wasco county man jumped up and declared his

neighbor from Polk had no grievance, but rather that he should be congratulated on the deal. He said that he shipped a cow hide to market and he received a bill for 12 cents to be remitted, that the freight and expense was this sum above the selling price. It will be interesting to both farmers to read that in 1923 this country imported \$118,000,000 worth of hides and skins.

Farmers will some time learn the lesson that business interests are constantly teaching them—that controlling markets is the only way they can be sure of profitable selling prices. They must organize as manufacturing industries do; they must control their production; they must be their own middle men—their own products from the farm to the retailer—they must be able to fix their own prices on their own goods and get the prices.

**Basket Social**

On Saturday night, April 12, a basket social will be held at the Dodge school house. There will be a program by the school children and a minstrel show by the grown ups. Ladies are asked to bring baskets. The proceeds of their sale will go towards paying the debt on the new addition to the school building. No admission will be charged and every one is cordially invited.
